

**Revision number:** 1 Revision date: 07/06/2018

#### **1. IDENTIFICATION**

#### Product name: Product code:

Product use: **Restrictions on use:** 

Company: TCI America 9211 N. Harborgate Street Portland, OR 97203 U.S.A. Telephone: +1-800-423-8616 / +1-503-283-1681 Fax: +1-888-520-1075 / +1-503-283-1987 e-mail: sales-US@TCIchemicals.com www.TCIchemicals.com

#### 2. HAZARD(S) IDENTIFICATION

OSHA Haz Com: CFR 1910.1200: WHMIS 2015:

Acute Toxicity - Oral [Category 4] Acute Toxicity - Dermal [Category 3] Acute Toxicity - Inhalation [Category 4] Eve Damage/Irritation [Category 1] Flammable Liquids [Category 3]

For laboratory research purposes.

Not for drug or household use.

Pyrrole

P0574

Danger!

TCI AMERICA

SAFETY DATA SHEET

Signal word:

[HNOC]

Hazard Statement(s):

Flammable liquid and vapor Toxic in contact with skin Harmful if swallowed or if inhaled Causes serious eye damage

Precautionary Statement(s): [Prevention] Keep away from heat, sparks, open flames and hot surfaces. - No smoking. Keep container tightly closed. Ground and bond container and receiving equipment. Use explosion-proof electrical, ventilating and lighting equipment. Use only non-sparking tools. Take precautionary measures against static discharge. Avoid breathing mist, vapors or spray. Use only outdoors or in a well-ventilated area. Do not eat, drink or smoke when using this product. Wash hands and face thoroughly after handling. Wear protective gloves, protective clothing, face protection. If swallowed: Call a poison center or doctor if you feel unwell. Rinse mouth. If on skin: Wash with plenty [Response] of soap and water. Call a poison center or doctor if you feel unwell. Take off immediately all contaminated clothing and wash it before reuse. If inhaled: Remove person to fresh air and keep comfortable for breathing. Call a poison center or doctor if you feel unwell. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center or doctor. In case of fire: Use dry chemical, dry sand or foam to extinguish. Store in a well-ventilated place. Keep cool. Store locked up. [Storage] [Disposal] Dispose of contents and container in accordance with local, regional, national regulations (e.g. US: 40 CFR Part 261, EU:91/156/EEC, JP: Waste Disposal and Cleaning Act, etc.). Hazards not otherwise classified: None.

### 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance/mixture: Components: Percent: CAS RN: Molecular Weight: Chemical Formula:	Substance Pyrrole >99.0%(GC) 109-97-7 67.09 C₄H₅N
Chemical Formula:	C₄H₅N
Synonyms:	Divinylenimine

### 4. FIRST-AID MEASURES

Inhalation:	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON
	CENTER or doctor/physician if you feel unwell.
Skin contact:	Remove/Take off immediately all contaminated clothing. Gently wash with plenty of soap and wate Call a POISON CENTER or doctor/physician.
Eye contact:	Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do
-	Continue rinsing. If eye irritation persists: Get medical advice/attention.
Ingestion:	Call a POISON CENTER or doctor/physician if you feel unwell. Rinse mouth.
mptoms/effects:	
Acute:	Pain. Redness.
Delayed:	No data available

Indication of any immediate medical attention: Not available. Notes to physician: No data available

# 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media:	Dry chemical, foam, carbon dioxide.
Unsuitable extinguishing media:	Water (It may scatter and spread fire.)
Specific hazards arising from the chemical:	Take care as it may decompose upon combustion or in high temperatures to generate poisonous fume.
Hazardous combustion products:	These products include: Carbon oxides Nitrogen oxides
Other specific hazards:	Closed containers may explode from heat of a fire.
Advice for firefighters:	Wear self-contained breathing apparatus if possible.

# 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures:	Use extra personal protective equipment (self-contained breathing apparatus). Keep people away from and upwind of spill/leak. Ensure adequate ventilation. Entry to non-involved personnel should be controlled around the leakage area by roping off, etc.
Environmental precautions: Methods and materials for containment and cleaning up:	Prevent product from entering drains. Absorb spilled material in dry sand or inert absorbent before recovering it into an airtight container. In case of large amount of spillage, contain a spill by bunding. Adhered or collected material should be promptly disposed of, in accordance with appropriate laws and regulations.
Prevention of secondary hazards:	Remove all sources of ignition. Fire-extinguishing devices should be prepared in case of a fire. Use spark-proof tools and explosion-proof equipment.

# 7. HANDLING AND STORAGE

Precautions for safe handling:	Handling is performed in a well ventilated place. Wear suitable protective equipment. Prevent generation of vapour or mist. Keep away from heat/sparks/open flame/hot surfacesNo smoking. Take measures to prevent the build up of electrostatic charge. Use explosion-proof equipment. Wash hands and face thoroughly after handling. Use a closed system if possible. Use a ventilation, local exhaust if vapour or aerosol will be generated. Avoid contact with skin, eyes and clothing.
Conditions for safe storage, including a	iny incompatibilities
Storage conditions:	Keep container tightly closed. Store in a cool, dark and well-ventilated place.
	Store under inert gas. Store locked up.
	Store away from incompatible materials such as oxidizing agents.
	Light-sensitive Air-sensitive
Packaging material:	Comply with laws.

**TCI AMERICA** 

# 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Appropriate engineering controls:	Follow safe industrial engineering/laboratory practices when handling any chemical. Install a closed system or local exhaust. Also install safety shower and eye bath.
Personal protective equipment	
Respiratory protection:	Half or full facepiece respirator, self-contained breathing apparatus(SCBA), supplied air respirator, etc. Use respirators approved under appropriate government standards and follow local and national regulations.
Hand protection:	Impervious gloves.
Eye protection:	Safety goggles. A face-shield, if the situation requires.
Skin and body protection:	Impervious protective clothing. Protective boots, if the situation requires.

# 9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state (20°C): Form: Colour: Odour: Odor threshold: Odour threshold:	Liquid Clear Colorless - Yellow Chloroform-like No data available No data available		
Melting point/freezing point:	-23°C (-9°F)	pH:	No data available
Boiling point/range:	130°C (266°F)	Vapour pressure:	No data available.
Decomposition temperature: Relative density:	No data available 0.97	Vapour density:	2.31 No data available
Kinematic viscosity:	No data available	Dynamic Viscosity:	NO Gala avaliable
Log Pow:	No data available	Evaporation rate(Butyl Acetate=1):	No data available
Flash point:	39°C (102°F)	Autoignition temperature:	No data available
Flammability(solid, gas):	No data available	Flammability or explosive limits:	0.40/
		Lower:	3.1%
Solubility/icc)		Upper:	14.8%
Solubility(ies): [Water] [Other solvents]	Soluble (45g/L, 25°C)		
Soluble:	Ether, Alcohols, Benzene	e, Many organic solvents	

### 10. STABILITY AND REACTIVITY

Reactivity: Chemical stability: Possibility of hazardous reactions: Conditions to avoid: Incompatible materials: Hazardous decomposition products:

No data available Stable under proper conditions. No special reactivity has been reported. Spark, Open flame, Static discharge Oxidizing agents, Acids s: Carbon dioxide, Carbon monoxide, Nitrogen oxides (NOx)

### 11. TOXICOLOGICAL INFORMATION

### RTECS Number: UX9275000

Acute Toxicity: ipr-mus LD50:98 mg/kg orl-rbt LDLo:147 mg/kg		ipr-rbt LDLo:150 mg/kg scu-mus LD50:61 mg/kg		
Skin corrosion/irritation: No data available				
Serious eye damage/irritation: No data available				
<b>Respiratory or skin sensitization:</b> No data available				
Germ cell mutagenicity: dnr-bcs 20100 ug/disk				
Carcinogenicity: No data available				
IARC: No data available	NTP:	No data available	OSHA:	No data available
<b>Reproductive toxicity:</b> No data available				
Target organ(s):	No data available			
12. ECOLOGICAL INFORMATION				
Ecotoxicity:				
Fish:	No data available			
Crustacea:	No data available			
Algae:	No data available			
Persistence / degradability: Bioaccumulative potential(BCF): Mobility in soil	46% (by BOD) , 94 2	% (by TOC) , 100% (by GC)		
Log Pow:	0.75			
Soil adsorption (Koc):	61			
Henry's Law (PaM ³/mol):	1.8			
13. DISPOSAL CONSIDERATIONS				]
Disposal of product:	Recycle to process	if possible. It is the generator's resp	onsibility to	comply with Federal State and
	Local rules and reg and burn in a chem intended to provide with this section en Identification and L	julations. You may be able to dissolv nical incinerator equipped with an after e assistance but does not replace the isure regulatory compliance accordin isting of Hazardous Waste are listed	e or mix ma erburner and se laws, noi g to the law in 40 CFR I	terial with a combustible solvent d scrubber system. This section is does compliance in accordance . US EPA guidelines for Parts 261. The product should not

Disposal of container: Other considerations: Dispose of as unused product. Do not re-use empty containers. Observe all federal, state and local regulations when disposing of the substance.

be allowed to enter the environment, drains, water ways, or the soil.

14. TRANSPORT INFORMATION

### 16. OTHER INFORMATION

### Revision date: 07/06/2018

#### Revision number: 1

TCI chemicals are for research purposes only and are NOT intended for use as drugs, food additives, households, or pesticides. The information herein is believed to be correct, but does not claim to be all inclusive and should be used only as a guide. Neither the above named supplier nor any of its affiliates or subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All chemical reagents must be handled with the recognition that their chemical, physiological, toxicological, and hazardous properties have not been fully investigated or determined. All chemical reagents should be handled only by individuals who are familiar with their potential hazards and who have been fully trained in proper safety, laboratory, and chemical handling procedures. Although certain hazards are described herein, we can not guarantee that these are the only hazards which exist. Our SDS are based only on data available at the time of shipping and are subject to change without notice as new information is obtained. Avoid long storage periods since the product is subject to degradation with age and may become more dangerous or hazardous. It is the responsibility of the user to request updated SDS for products that are stored for extended periods. Disposal of unused product must be undertaken by qualified personnel who are knowledgeable in all applicable regulations and follow all pertinent safety precautions including the use of appropriate protective equipment (e.g. protective goggles, protective clothing, breathing equipment, face mask, fume hood). For proper handling and disposal, always comply with federal, state and local regulations.
