**Danger**

**Hazard statements**

Harmful if swallowed
May be harmful in contact with skin
Toxic if inhaled
Causes skin irritation
Causes serious eye irritation
Suspected of causing cancer
May cause respiratory irritation. May cause drowsiness or dizziness
Highly flammable liquid and vapor

**Hazards not otherwise classified (HNOC)**

Not Applicable

**Other hazards**

May be harmful in contact with skin

**Product code:** D1386  
**Product name:** 1,2-DICHLOROETHANE, ANHYDROUS
Precautionary Statements - Prevention
Obtain special instructions before use
Do not handle until all safety precautions have been read and understood
Wash face, hands and any exposed skin thoroughly after handling
Wear eye/face protection
Wear protective gloves/protective clothing/eye protection/face protection
Do not eat, drink or smoke when using this product
Avoid breathing dust/fume/gas/mist/vapors/spray
Use only outdoors or in a well-ventilated area
Wear respiratory protection
Keep away from heat/sparks/open flames/hot surfaces. — No smoking
Keep container tightly closed
Ground/bond container and receiving equipment
Use explosion-proof electrical/ventilating/lighting/equipment
Use only non-sparking tools
Take precautionary measures against static discharge
Keep cool

Precautionary Statements - Response
If exposed or concerned: Get medical advice/attention
In case of fire: Use CO2, dry chemical, or foam to extinguish.
If IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
If skin irritation occurs: Get medical advice/attention
If ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower
Wash contaminated clothing before reuse
If INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or doctor/physician.
If SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell
Rinse mouth

Precautionary Statements - Storage
Store locked up
Store in a well-ventilated place. Keep container tightly closed

Precautionary Statements - Disposal
Dispose of contents/container to an approved waste disposal plant

4. FIRST AID MEASURES

First aid measures

General Advice: Poison information centers in each State capital city can provide additional assistance for scheduled poisons (13 1126). Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves. First aider needs to protect himself.

Skin Contact: Wash off immediately with soap and plenty of water removing all contaminated clothes and shoes. Get medical attention. If skin irritation persists, call a physician.

Eye Contact: Flush eyes with water for 15 minutes. Get medical attention. If symptoms persist, call a physician.

Product code: D1386  
Product name: 1,2-DICHLOROETHANE, ANHYDROUS
Inhalation: Toxic by inhalation. Move to fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial respiration. WARNING! It may be hazardous to the person providing aid to give mouth-to-mouth resuscitation when the inhaled or ingested material is toxic, infectious or corrosive. Do not use mouth-to-mouth resuscitation if victim ingested or inhaled the substance; induce artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. Get medical attention.

Ingestion: Harmful if swallowed. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Obtain medical attention.

Most important symptoms and effects, both acute and delayed

Symptoms

Indication of any immediate medical attention and special treatment needed
Notes to Physician: Treat symptomatically

Protection of first-aiders
First-Aid Providers: Avoid exposure to blood or body fluids. Wear gloves and other necessary protective clothing. Dispose of contaminated clothing and equipment as bio-hazardous waste

5. FIRE-FIGHTING MEASURES

Extinguishing Media
Suitable Extinguishing Media: Dry chemical. Carbon dioxide (CO2). Water spray, mist, or foam.

Unsuitable Extinguishing Media: Do not use a solid (straight) water stream as it may scatter and spread fire.

Specific hazards arising from the chemical
Hazardous Combustion Products: Hydrogen chloride, Vinyl chloride, Acetylene, Phosgene, Carbon monoxide, carbon dioxide

Specific hazards: Flammable. May be ignited by heat, sparks or flames. Vapor may travel considerable distance to source of ignition and flash back. Vapors may form explosive mixtures with air. Most vapors are heavier than air. They will spread along the ground and collect in low or confined areas (sewers, basements, tanks). Container explosion may occur under fire conditions or when heated. Fire may produce irritating, corrosive and/or toxic gases
Hydrogen chloride gas is produced during combustion
When heated to decomposition it emits toxic fumes of hydrogen chloride

Special Protective Actions for Firefighters
Specific Methods: Water mist may be used to cool closed containers. For larger fires, use water spray or fog. Cool containers with flooding quantities of water until well after fire is out.

Product code: D1386  Product name: 1,2-DICHLOROETHANE, ANHYDROUS
Special Protective Equipment for Firefighters: As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal Precautions: Ensure adequate ventilation. Use personal protective equipment. Avoid contact with skin, eyes and clothing. Keep people away from and upwind of spill/leak. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Remove all sources of ignition. Pay attention to flashback. Take precautionary measures against static discharges. All equipment used when handling the product must be grounded. In case of large spill, water spray or vapor suppressing foam may be used to reduce vapors, but may not prevent ignition in closed spaces. Use spark-proof tools and explosion-proof equipment.

Environmental precautions Prevent further leakage or spillage if safe to do so. Prevent entry into waterways, sewers, basements or confined areas.

Methods and material for containment and cleaning up

Methods for containment Stop leak if you can do it without risk. Absorb spill with inert material (e.g. vermiculite, dry sand or earth). In case of large spill, dike if needed. Dike far ahead of liquid spill for later disposal.

Methods for cleaning up Sweep up and shovel. Use appropriate tools to put the spilled material in a suitable chemical waste disposal container. Use only non-sparking tools. Clean contaminated surface thoroughly.

7. HANDLING AND STORAGE

Precautions for safe handling

Technical Measures/Precautions: Provide sufficient air exchange and/or exhaust in work rooms. Remove all sources of ignition. To avoid ignition of vapors by static electricity discharge, all metal parts of the equipment must be grounded. Keep away from incompatible materials.

Safe Handling Advice Wear personal protective equipment. Avoid contact with skin, eyes and clothing. Use only in well-ventilated areas. Do not breathe vapors or spray mist. Do not ingest. When using do not smoke. Keep away from open flames, hot surfaces and sources of ignition. Handle in accordance with good industrial hygiene and safety practice.

Conditions for safe storage, including any incompatibilities

Technical Measures/Storage Conditions: Keep container tightly closed in a dry and well-ventilated place. Keep away from open flames, hot surfaces and sources of ignition. Store at room temperature in the original container. Store in a segregated and approved area. Store away from incompatible materials.

### Appropriate engineering controls

**Engineering measures to reduce exposure:**

Ensure adequate ventilation. Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapors and mist below their respective threshold limit value.

### Individual protection measures, such as personal protective equipment

**Personal Protective Equipment**

- **Eye protection:** Goggles.
- **Skin and body protection:** Long sleeved clothing. Chemical resistant apron. Gloves.
- **Respiratory protection:** Vapor respirator. Be sure to use an approved/certified respirator or equivalent.
- **Hygiene measures:** Avoid contact with skin, eyes and clothing. When using, do not eat, drink or smoke. Wash hands and face before breaks and immediately after handling the product.

10. STABILITY AND REACTIVITY

Reactivity
Explosion can result when ethylene dichloride is mixed with liquid ammonia, dimethylaminopropylamine, nitrogen tetroxide, metal powders, organic peroxides, reducing agents, alkali or bases, alkali earth metals.
Mixtures with Nitric acid are easily detonated by heat, impact or friction
Mixtures with mercaptans form thioethers and generate heat while mixtures with nitrides generate heat and ammonia forming toxic fumes.
Not compatible with chemically active metals such as aluminum or magnesium powder, sodium, potassium.
In the presence of UV light, air, moisture, or heat liberates toxic quantities of phosgene, hydrogen chloride, carbon monoxide, carbon dioxide, acetylene, or vinyl chloride.

Chemical stability
Stability:
- Stable under recommended storage conditions. Ethylene dichloride decomposes slowly becoming acidic and darkening in color.
- In the presence of air, moisture, light at ordinary temperature, it darkens in color.

Possibility of Hazardous Reactions:
- Hazardous polymerization does not occur

Conditions to avoid:
- Heat, flames and sparks.. Ignition sources. Incompatible materials.

Symptoms

Skin Contact: Causes skin irritation. May be harmful in contact with skin. If absorbed through skin it may cause systemic effects. If absorbed through the skin it may affect behavior/central nervous system and cause central nervous system effects.

Eye Contact: Causes serious eye irritation.

Inhalation
Toxic by inhalation. Causes respiratory tract irritation. May cause dyspnea (difficulty breathing or shortness of breath). May cause headache, nausea, vomiting. Inhalation of vapors may cause drowsiness and dizziness. Inhalation of high concentrations of vapor may cause anesthetic effects. May affect behavior/central nervous system (somnolence). It may affect behavior/central nervous system (tremors). May affect behavior/central nervous system (lightheadedness, ataxia). May cause muscle weakness. May cause cyanosis. It may affect the liver. May affect the kidneys. It may affect the adrenal gland. May affect behavior/central nervous system (confusion). May affect behavior/central nervous system (loss of consciousness, coma). May cause increased heart rate (tachycardia).

Ingestion
Ingestion may cause nausea, vomiting. May cause hypermotility, diarrhea. It may affect behavior/central nervous system (central nervous system depression, ataxia, general anesthetic). May affect behavior/central nervous system (somnolence). May cause cyanosis. May affect respiration (dyspnea - difficulty breathing and shortness of breath). May affect liver. May affect the kidneys.

Aspiration hazard
No information available

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Chronic Toxicity
Prolonged or repeated skin contact may cause defatting and dermatitis
Prolonged or repeated inhalation may affect the kidneys
Prolonged or repeated inhalation may affect the liver
Prolonged or repeated inhalation may cause anemia
Prolonged or repeated skin absorption may affect the liver and kidneys
Prolonged or repeated ingestion may affect the liver, and kidneys
Prolonged or repeated ingestion may affect the blood (changes in serum composition)
Prolonged or repeated ingestion may affect the blood (changes in white blood cell count)

Sensitization:
No information available

Mutagenic Effects:
Experiments with bacteria and/or yeast have shown mutagenic effects
Mutations in microorganisms
Mutagenic effects in mammalian somatic cells

Carcinogenic effects:
Suspected of causing cancer. Possibly carcinogenic to humans.
