SAFETY DATA SHEET

1. Identification

Product identifier

Product code: HP572
Product Name: N,N-DIMETHYLFORMAMIDE, EXCEEDS A.C.S. SPECIFICATIONS, HPLC GRADE

Other means of identification
Synonyms:
DMF
DMFA
Dimethyl formamide
Dimethylformamide
DN,N-Dimethyl formamide
N,N-Dimethylmethanamide
N-Formyldimethylamine
Dimetilformamida (Spanish)
Diméthylformamide (French)

CAS #: 68-12-2
RTECS #: LQ2100000
CI#: Not available

Recommended use of the chemical and restrictions on use

Recommended use: Solvent.
Uses advised against: No information available

Supplier:
Spectrum Chemical Mfg. Corp
14422 South San Pedro St.
Gardena, CA  90248
(310) 516-8000

Order Online At: https://www.spectrumchemical.com

Emergency telephone number: Chemtrec 1-800-424-9300
Contact Person: Tom Tyner (USA - West Coast)
Contact Person: Ibad Tirmiz (USA - East Coast)

2. HAZARDS IDENTIFICATION

Classification

This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

Considered a dangerous substance or mixture according to the Globally Harmonized System (GHS)

| Acute toxicity - Oral                        | Category 4 |
| Acute toxicity - Inhalation (Gases)         | Category 3 |
| Acute toxicity - Inhalation (Dusts/Mists)   | Category 4 |
| Serious eye damage/eye irritation           | Category 2 |
Reproductive toxicity   Category 1B
Specific target organ toxicity (repeated exposure) Category 1
Flammable liquids Category 3

Label elements

Danger

Hazard statements
Harmful if swallowed
Toxic if inhaled
Causes serious eye irritation
May damage fertility or the unborn child
Causes damage to organs through prolonged or repeated exposure
Flammable liquid and vapor

Hazard not otherwise classified (HNOC)
Not Applicable

Other hazards
May be harmful in contact with skin
Causes mild skin irritation

Precautionary Statements - Prevention
Obtain special instructions before use
Do not handle until all safety precautions have been read and understood
Wash face, hands and any exposed skin thoroughly after handling
Do not eat, drink or smoke when using this product
Use only outdoors or in a well-ventilated area
Wear protective gloves/protective clothing/eye protection/face protection
Do not breathe dust/fume/gas/mist/vapors/spray
Keep away from heat/sparks/open flames/hot surfaces. — No smoking
Keep container tightly closed
Ground/bond container and receiving equipment
Use explosion-proof electrical/ventilating/lighting/.../equipment
Use only non-sparking tools
Take precautionary measures against static discharge
Keep cool

Precautionary Statements - Response
IF exposed or concerned: Get medical advice/attention
In case of fire: Use CO2, dry chemical, or foam to extinguish.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

Product code: HP572
Product name: N,N-DIMETHYLFORMAMIDE, EXCEEDS A.C.S. SPECIFICATIONS, HPLC GRADE
IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower Call a POISON CENTER or doctor/physician. IF INHALED: Remove person to fresh air and keep comfortable for breathing. IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell Rinse mouth

Precautionary Statements - Storage
Store locked up
Store in a well-ventilated place. Keep container tightly closed

Precautionary Statements - Disposal
Dispose of contents/container to an approved waste disposal plant

4. FIRST AID MEASURES

First aid measures

General Advice: National Capital Poison Center in the United States can provide assistance if you have a poison emergency and need to talk to a poison specialist. Call 1-800-222-1222.

Skin Contact: Wash off immediately with soap and plenty of water removing all contaminated clothing and shoes. Get medical attention. If skin irritation persists, call a physician.

Eye Contact: Flush eyes with water for 15 minutes. Get medical attention.

Inhalation: Move to fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial respiration. Get medical attention.

Ingestion: Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Obtain medical attention.

Most important symptoms and effects, both acute and delayed

Symptoms
Causes serious eye irritation
Causes conjunctival irritation
Mild skin irritation
Lacrimation
Dyspnea (Difficulty breathing and shortness of breath)
Ingestion may cause vomiting and nausea
Abdominal pain
May cause methemoglobinemia and cyanosis
Central nervous system effects
May cause cardiovascular effects
May cause loss of appetite
It may affect the kidneys
May affect the liver

Indication of any immediate medical attention and special treatment needed
Notes to Physician: Treat symptomatically.

Protection of first-aiders
First-Aid Providers: Avoid exposure to blood or body fluids. Wear gloves and other necessary protective clothing. Dispose of contaminated clothing and equipment as bio-hazardous waste.
5. FIRE-FIGHTING MEASURES

**Extinguishing Media**
**Suitable Extinguishing Media:**
Carbon dioxide (CO2). Dry chemical. Alcohol-resistant foam. Water spray.

**Unsuitable Extinguishing Media:**
Do not use a solid (straight) water stream as it may scatter and spread fire.

**Specific hazards arising from the chemical**

**Hazardous combustion products**
Carbon Monoxide, Carbon Dioxide. Nitrogen oxides (NOx). Dimethylamine.

**Specific hazards**
Flammable. May be ignited by heat, sparks or flames. Vapor may travel considerable distance to source of ignition and flash back. Vapors may form explosive mixtures with air. Most vapors are heavier than air. They will spread along the ground and collect in low or confined areas (sewers, basements, tanks). Container explosion may occur under fire conditions or when heated.

**Special Protective Actions for Firefighters**

**Specific Methods:**
No information available

**Special Protective Equipment for Firefighters:**
As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear

6. ACCIDENTAL RELEASE MEASURES

**Personal precautions, protective equipment and emergency procedures**

**Personal Precautions:**
Ensure adequate ventilation. Avoid contact with skin, eyes and clothing. Use personal protective equipment. Remove all sources of ignition. Pay attention to flashback. Take precautionary measures against static discharges. All equipment used when handling the product must be grounded. Use spark-proof tools and explosion-proof equipment. In case of large spill, water spray or vapor suppressing foam may be used to reduce vapors, but may not prevent ignition in closed spaces.

**Environmental precautions**
Prevent further leakage or spillage if safe to do so. Prevent entry into waterways, sewers, basements or confined areas.

**Methods and material for containment and cleaning up**

**Methods for containment**
Stop leak if you can do it without risk. Absorb spill with inert material (e.g. vermiculite, dry sand or earth). In case of large spill, dike if needed. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Use appropriate tools to put the spilled material in a suitable chemical waste disposal container. Use only non-sparking tools. Clean contaminated surface thoroughly.

**Product code:** HP572  
**Product name:** N,N-DIMETHYLFORMAMIDE, EXCEEDS A.C.S. SPECIFICATIONS, HPLC GRADE
7. HANDLING AND STORAGE

Precautions for safe handling

Technical Measures/Precautions:
Provide sufficient air exchange and/or exhaust in work rooms. Remove all sources of ignition. To avoid ignition of vapors by static electricity discharge, all metal parts of the equipment must be grounded. Keep away from incompatible materials.

Safe Handling Advice
Wear personal protective equipment. Use only in well-ventilated areas. Avoid contact with skin, eyes and clothing. Keep away from heat and sources of ignition. Take precautionary measures against static discharges. Do not breathe vapors or spray mist. Do not ingest. When using do not smoke. Handle in accordance with good industrial hygiene and safety practice.

Conditions for safe storage, including any incompatibilities

Technical Measures/Storage Conditions:
Keep container tightly closed in a dry and well-ventilated place. Store at room temperature in the original container. Keep away from heat and sources of ignition. Store in a segregated and approved area. Store away from incompatible materials.

Incompatible Materials:
Oxidizing agents
Reducing agents
Acids
Alkali Metals
Sodium
Bromine
Phosphorous trioxide
Chlorine
Sodium borohydride
Sodium tetrahydroborate
Sodium hydride
Ethylene bromide
Hexaclorobenzene
Cyanuric chloride
Lithium azide
Triethylaluminum
chlorinated hydrocarbons
Diisocyanatomethane
Methylene diisocyanate
halogenated hydrocarbons
Nitrates
Carbon tetrachloride
alkylaluminum compounds
Sodium hydroborate and heat
Sulfanyl chloride and traces of zinc or iron
2,4,6-Trichloro-1,3,5-triazine
2,5-dimethylpyrrole and phosphorus oxychloride

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters

National occupational exposure limits

Appropriate engineering controls

Engineering measures to reduce exposure: Ensure adequate ventilation. Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapors and mist below their respective threshold limit value.

Individual protection measures, such as personal protective equipment

Personal Protective Equipment

Eye protection: Goggles

Skin and body protection: Chemical resistant apron
Long sleeved clothing
Gloves

Respiratory protection: Respiratory protection is not necessary for normal handling. Good room ventilation or use of local exhaust (fume hood) is sufficient. Use a vapor respirator under conditions where exposure to the substance is apparent (e.g. generation of high concentrations of mist or vapor, inadequate ventilation, development of respiratory tract irritation), and engineering controls are not feasible. Be sure to use an approved/certified respirator or equivalent.

Hygiene measures: Avoid contact with skin, eyes and clothing. When using, do not eat, drink or smoke. Wash hands before breaks and immediately after handling the product.

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state: Liquid

Appearance: No information available.

Color: Colorless. Light yellow.

Odor: Amine-like. Fishy.

Taste: No information available.

Formula: C3-H7-N-O or HCON(CH3)2

Product code: HP572

Product name: N,N-DIMETHYLFORMAMIDE, EXCEEDS A.C.S. SPECIFICATIONS, HPLC GRADE
10. STABILITY AND REACTIVITY

**Reactivity**
Dimethylformamide forms explosive reactions with: Bromine, Potassium permanganate, Lithium azide, Triethylaluminum and heat, and Uranium perchlorate
Reacts vigorously with oxidizing agents
Reactive with reducing agents
Reactive with acids

**Chemical stability**

**Stability:** Stable under recommended storage conditions.

**Possibility of Hazardous Reactions:** Hazardous polymerization does not occur

**Conditions to avoid:** Heat. Ignition sources. Incompatible materials.

**Incompatible Materials:** Oxidizing agents
Reducing agents
Acids
Alkali Metals
Sodium
Bromine
Phosphorous trioxide
Chlorine
Sodium borohydride
Sodium tetrahydroborate
Sodium hydride

**Molecular/Formula weight (g/mole):** Flammability (solid, gas)
73.09
no data available

**Flash Point Tested according to:** Autoignition Temperature (°C/°F):
Closed cup
445 °C/833 °F
Open cup

**Upper Explosion Limit (%):** Melting point/range(°C/°F):
15.2%
-61 °C/-77.8 °F

**Boiling point/range(°C/°F):** Bulk density:
153 °C/307.4 °F @ 760 mm Hg
No information available

**Specific gravity:** pH
0.949
No information available

**Evaporation rate:** Vapor density:
No information available
2.51

**Odor threshold (ppm):** Partition coefficient (n-octanol/water):
100
-1.01

**Miscibility:** Solubility:
Miscible with water
Miscible with many organic solvents
Soluble in Ether
Soluble in Chloroform
Soluble in Benzene
Soluble in hot alcohol
Soluble in Acetone

**Product code:** HP572
**Product name:** N,N-DIMETHYLFORMAMIDE, EXCEEDS A.C.S. SPECIFICATIONS, HPLC GRADE

Hexachlorobenzene
Cyanuric chloride
Lithium azide
Triethylaluminum
chlorinated hydrocarbons
Diisocyanatomethane
Methylene diisocyanate
halogenated hydrocarbons
Nitrates
Carbon tetrachloride
alkylaluminum compounds
Sodium hydroborate and heat
Sulfinyl chloride and traces of zinc or iron
2,4,6-Trichloro-1,3,5-triazine
2,5-dimethylpyrrole and phosphorus oxychloride

**Hazardous decomposition products:**
When heated to decomposition it emits toxic fumes. Carbon monoxide. Nitrogen oxides (NOx). Dimethylamine.

**Other Information Corrosivity:**
No information available

**Special Remarks on Corrosivity:**
Pure Dimethylformamide is essentially noncorrosive to metals. However, copper, tin and their alloys should be avoided

### 11. TOXICOLOGICAL INFORMATION

**Information on likely routes of exposure**

**Principal Routes of Exposure:**
Ingestion. Skin. Inhalation.

**Acute Toxicity**

Symptoms

Skin Contact: May cause skin irritation. Mild skin irritation. It can be absorbed through the skin. May be harmful in contact with skin. It may facilitate the absorption of other dissolved substances. Absorption through the skin may cause systemic effects similar to those of inhalation or ingestion.

Eye Contact: Causes eye irritation. Severe eye irritation. Causes conjunctivitis. Lachrymator (substance which increases the flow of tears).

Inhalation
Toxic by inhalation. May cause irritation of respiratory tract. Symptoms may include coughing and wheezing. Can cause dyspnea (shortness of breath and difficulty breathing). Causes lacermination. May cause conjunctival irritation. May cause loss of appetite. May cause nausea, vomiting. May cause abdominal pain. May cause diarrhea or constipation. May cause cyanosis. May cause methemoglobinemia (the formation of methemoglobin in the blood which causes deficient oxygenation of the blood due to decreased available hemoglobin). Methemoglobinemia can lead to cyanosis (bluish skin and lips due to deficient oxygenation of the blood), and can result in fatigue, dizziness, lightheadedness, headache, mental impairment, incoordination, muscular weakness, convulsions/seizures, tachycardia or bradycardia (slow or fast heart beat), hypertension, dysrhythmias, dyspnea (shortness of breath and labored breathing), loss of consciousness, and death. Arterial blood with elevated methemoglobin levels has a characteristic chocolate-brown color as compared to normal bright red oxygen containing arterial blood. Severe methemoglobinemia is characterized by bradycardia or tachyrdardia (slow or fast heart beat), dysrhythmias, seizures, coma and death. May cause carboxyhemoglobinemia (the binding of hemoglobin to carbon monoxide in place of oxygen - also known as carbon monoxide poisoning). May affect the brain. It may affect behavior/central nervous system (convulsions/seizures). May affect behavior/central nervous system (somnolence). May affect behavior/central nervous system (central nervous system depresson, headache, confusion, fatigue, irritability, muscle weakness, coma). It may affect the cardiovascular system (bradycardia, hypotension). May affect the kidneys. It may affect the liver (hepatotoxin - enlarged liver, elevated liver enzymes, jaundice). It may affect the blood (changes in serum composition). Exposure to dimethylformamide can cause ethanol intolerance. When occupationally exposed
workers also ingest ethanol, it can cause flushing of the face and neck, abnormal
taste (dysgeusia), and palpitations.

**Ingestion**

Harmful if swallowed. Ingestion may cause nausea, vomiting. May cause
abdominal pain. May cause loss of appetite. May affect liver. May affect urinary
system (kidneys). It may affect the blood (leukocytosis). May affect
behavior/central nervous system (somnolence, ataxia, tetany, general anesthetic,
muscle weakness). May affect the cardiovascular system (hypertension).

**Aspiration hazard**

No information available.

**Delayed and immediate effects as well as chronic effects from short and long-term exposure**

**Chronic Toxicity**

Prolonged or repeated ingestion may affect metabolism (cause anorexia, weight
loss). Prolonged or repeated ingestion may affect the liver, and kidneys.
Prolonged or repeated inhalation may affect the cardiovascular system
(degenerative changes in the myocardium). Prolonged or repeated inhalation may
cause central nervous system effects. Prolonged or repeated inhalation may
cause loss of appetite. Prolonged or repeated inhalation may affect metabolism
(weight loss). Prolonged or repeated inhalation may affect the brain. Prolonged or
repeated inhalation may affect the kidneys. Prolonged or repeated inhalation may
affect the liver. Prolonged or repeated inhalation or ingestion may affect the blood (decrease in platelets and
longer blood coagulation times, leukopenia, lymphocytosis, anemia,
polycthemia).

**Sensitization:**

No information available.

**Mutagenic Effects:**

May affect genetic material
Mutagenic effects in mammalian somatic cells
Experiments with animal lymphocytes have shown mutagenic effects
Mutations in microorganisms
Experiments with bacteria have shown mutagenic effects

**Carcinogenic effects:**

Probably carcinogenic to humans.
