Toxicological Data on Ingredients

Phenyl Isocyanate:
- ORAL (LD50): Acute: 196 mg/kg [Mouse], 800 mg/kg [Rat].
- DERMAL (LD50): Acute: 7130 mg/kg [Rabbit].
- MIST (LC50): Acute: 22 mg/m³ 4 hours [Rat].

Section 3. Hazards Identification

Potential Acute Health Effects
Extremely hazardous in case of inhalation. Hazardous in case of skin contact (irritant), of eye contact (irritant), of ingestion. Slightly hazardous in case of skin contact (permeator). Severe over-exposure can result in death.
Phenyl Isocyanate  

**Potential Chronic Health Effects**  
CARCINOGENIC EFFECTS: Not available.  
MUTAGENIC EFFECTS: Mutagenic for bacteria and/or yeast.  
TERATOGENIC EFFECTS: Not available.  
DEVELOPMENTAL TOXICITY: Not available.  
The substance may be toxic to lungs, skin.  
Repeated or prolonged exposure to the substance can produce target organs damage. Repeated exposure to a highly toxic material may produce general deterioration of health by an accumulation in one or many human organs.

**Section 4. First Aid Measures**

**Eye Contact**  
Check for and remove any contact lenses. In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention.

**Skin Contact**  
In case of contact, immediately flush skin with plenty of water. Cover the irritated skin with an emollient. Remove contaminated clothing and shoes. Wash clothing before reuse. Thoroughly clean shoes before reuse. Get medical attention.

**Serious Skin Contact**  
Wash with a disinfectant soap and cover the contaminated skin with an anti-bacterial cream. Seek immediate medical attention.

**Inhalation**  
If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention immediately.

**Serious Inhalation**  
Evacuate the victim to a safe area as soon as possible. Loosen tight clothing such as a collar, tie, belt or waistband. If breathing is difficult, administer oxygen. If the victim is not breathing, perform mouth-to-mouth resuscitation. WARNING: It may be hazardous to the person providing aid to give mouth-to-mouth resuscitation when the inhaled material is toxic, infectious or corrosive. Seek immediate medical attention.

**Ingestion**  
Do NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. If large quantities of this material are swallowed, call a physician immediately. Loosen tight clothing such as a collar, tie, belt or waistband.

**Serious Ingestion**  
Not available.

**Section 5. Fire and Explosion Data**

**Flammability of the Product**  
Flammable.

**Auto-Ignition Temperature**  
Not available.

**Flash Points**  
OPEN CUP: 55.556°C (132°F).

**Flammable Limits**  
Not available.

**Products of Combustion**  
These products are carbon oxides (CO, CO2), nitrogen oxides (NO, NO2...).

**Fire Hazards in Presence of Various Substances**  
Flammable in presence of open flames and sparks, of heat.

**Explosion Hazards in Presence of Various Substances**  
Risks of explosion of the product in presence of mechanical impact: Not available. Risks of explosion of the product in presence of static discharge: Not available.

**Fire Fighting Media and Instructions**  
Flammable liquid, insoluble in water.  
SMALL FIRE: Use DRY chemical powder.  
LARGE FIRE: Use water spray or fog. Never direct a water jet in the container in order to prevent any splashing of the product which could cause spreading of the fire. Cool containing vessels with water jet in order to prevent pressure build-up, autoignition or explosion.

**Special Remarks on Fire Hazards**  
Vapor may travel considerable distance to source of ignition and flash back.

**Special Remarks on Explosion Hazards**  
Not available.
Section 6. Accidental Release Measures

Small Spill
Absorb with an inert material and put the spilled material in an appropriate waste disposal.

Large Spill
Toxic flammable liquid, insoluble or very slightly soluble in water. Keep away from heat. Keep away from sources of ignition. Stop leak if without risk. Absorb with DRY earth, sand or other non-combustible material. Do not get water inside container. Do not touch spilled material. Prevent entry into sewers, basements or confined areas; dike if needed. Call for assistance on disposal.

Section 7. Handling and Storage

Precautions
Keep away from heat. Keep away from sources of ignition. Ground all equipment containing material. Do not ingest. Do not breathe gas/fumes/vapor/spray. Wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment. If ingested, seek medical advice immediately and show the container or the label. Avoid contact with skin and eyes. Keep away from incompatibles such as oxidizing agents, acids, alkalis.

Storage
Store in a segregated and approved area. Keep container in a cool, well-ventilated area. Keep container tightly closed and sealed until ready for use. Avoid all possible sources of ignition (spark or flame). Moisture sensitive.

Section 8. Exposure Controls/Personal Protection

Engineering Controls
Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapors below their respective threshold limit value. Ensure that eyewash stations and safety showers are proximal to the work-station location.

Personal Protection
Splash goggles. Lab coat. Vapor respirator. Be sure to use an approved/certified respirator or equivalent. Gloves.

Personal Protection in Case of a Large Spill
Splash goggles. Full suit. Vapor respirator. Boots. Gloves. A self contained breathing apparatus should be used to avoid inhalation of the product. Suggested protective clothing might not be sufficient; consult a specialist BEFORE handling this product.

Exposure Limits
No exposure limits have been by ACGIH or OSHA for this compound. Based on exposure limits for other monoisocyanates, a TWA of 0.01 ppm is recommended.

Section 9. Physical and Chemical Properties

Physical state and appearance
Liquid.

Odor
Acrid

Taste
Not available.

Color
Colorless to light yellow. Clear

Molecular Weight
119.13 g/mole

pH (1% soln/water)
Not applicable.

Boiling Point
158°C (316.4°F) - 168°C

Melting Point
-30°C (-22°F)

Critical Temperature
Not available.

Specific Gravity
1.096 (Water = 1)

Vapor Pressure
Not available.

Vapor Density
Not available.

Volatility
Not available.

Odor Threshold
Not available.

Water/Oil Dist. Coeff.
Not available.

Ionicity (in Water)
Not available.

Dispersion Properties
Not available.

Solubility
 Decomposes in water and alcohol.
**Section 10. Stability and Reactivity Data**

<table>
<thead>
<tr>
<th>Stability</th>
<th>The product is stable.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Instability Temperature</td>
<td>Not available.</td>
</tr>
<tr>
<td>Conditions of Instability</td>
<td>Heat, ignition sources, incompatible materials, water/moisture.</td>
</tr>
<tr>
<td>Incompatibility with various substances</td>
<td>Reactive with oxidizing agents, acids, alkalis. Slightly reactive to reactive with moisture.</td>
</tr>
<tr>
<td>Corrosivity</td>
<td>Non-corrosive in presence of glass.</td>
</tr>
</tbody>
</table>

**Special Remarks on Reactivity**
Incompatible with water, alcohols, strong bases, amines, acids, heat, and strong oxidizing agents. Has exploded when stirred with cobalt pentammine Triazoperchlorate + nitrosyl perchlorate. Some corrosion to copper alloys and aluminum.

**Special Remarks on Corrosivity**
Not available.

**Polymerization**
Will not occur.

</tbody>
</table>

**Special Remarks on Toxicity to Animals**
Lethal Dose/Conc 50% Kil: 
LD50[Rat] - Route: Skin; Dose: 5 ml/kg

**Special Remarks on Chronic Effects on Humans**
May affect genetic material (mutagenic)

**Special Remarks on other Toxic Effects on Humans**
Acute Potential Health Effects:
Skin: Causes skin irritation. Symptoms may include reddening, swelling, rash, scaling, and possible blistering. It can be absorbed through the skin. It can affect behavior/central nervous system if absorbed through the skin with symptoms similar to that of acute inhalation or ingestion.
Eyes: Strong irritant. Contact liquid causes eye irritation and pain. Vapors may cause eye irritation. Lachrymator. Degree of injury depends on the concentration and duration of contact.
Inhalation: May be fatal if inhaled. Causes respiratory tract and mucous membrane irritation with coughing, wheezing, runny nose, sore throat, chest discomfort, shortness of breath and reduced lung function. May cause allergic respiratory reaction (asthma). May cause pulmonary edema, bronchitis. May cause cyanosis. May affect behavior/central nervous system (somnolence, tremor, aggression)
Ingestion: May be harmful if swallowed. Causes mouth irritation, sore throat, gastrointestinal tract irritation with abdominal pain, nausea, vomiting, diarrhea.
Chronic Potential Health Effects:
Inhalation: Prolonged or repeated inhalation may cause allergic respiratory reaction(asthma), bronchiolar constriction, decreased lung function, lung damage. Symptoms can include chest tightness, coughing, wheezing, shortness of breath, asthma attack. It may also affect the blood (red blood cells, red blood cell count). Skin: Prolonged or repeated skin contact may cause allergic dermatitis.
Eyes: Prolonged or repeated contact may cause conjunctivitis or effects as seen in acute eye exposure.
Section 12. Ecological Information

Ecotoxicity
Not available.

BOD5 and COD
Not available.

Products of Biodegradation
Possibly hazardous short term degradation products are not likely. However, long term degradation products may arise.

Toxicity of the Products of Biodegradation
The products of degradation are less toxic than the product itself.

Special Remarks on the Products of Biodegradation
Not available.

Section 13. Disposal Considerations

Waste Disposal
Waste must be disposed of in accordance with federal, state and local environmental control regulations.

Section 14. Transport Information

DOT Classification
CLASS 3: Flammable liquid.
CLASS 6.1: Poisonous material.

Identification
: Phenyl isocyanate UNNA: 2487 PG: I

Special Provisions for Transport
Poison inhalation hazard zone B

DOT (Pictograms)

Section 15. Other Regulatory Information and Pictograms

Federal and State Regulations
New Jersey: Phenyl Isocyanate
TSCA 8(b) inventory: Phenyl Isocyanate
TSCA 8(d) H and S data reporting: Phenyl Isocyanate: Effective date: 10/29/90; Sunset date: 6/30/98

California Proposition 65 Warnings
California prop. 65: This product contains the following ingredients for which the State of California has found to cause cancer which would require a warning under the statute: No products were found.
California prop. 65: This product contains the following ingredients for which the State of California has found to cause birth defects which would require a warning under the statute: No products were found.

Other Regulations
EINECS: This product is on the European Inventory of Existing Commercial Chemical Substances.

Other Classifications
WHMIS (Canada)
CLASS B-3: Combustible liquid with a flash point between 37.8°C (100°F) and 93.3°C (200°F).
CLASS D-1A: Material causing immediate and serious toxic effects (VERY TOXIC).
CLASS D-2B: Material causing other toxic effects (TOXIC).

DSCL (EEC)
R10- Flammable.
R22- Harmful if swallowed.
R26- Very toxic by inhalation.
R36/37/38- Irritating to eyes, respiratory system and skin.
R42- May cause sensitization by inhalation.
S26- In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
S28- After contact with skin, wash immediately with plenty of water.
S36/37- Wear suitable protective clothing and gloves.
S38- In case of insufficient ventilation, wear suitable respiratory equipment.
S45- In case of accident or if you feel unwell,
Phenyl Isocyanate

**Notice to Reader**

All chemicals may pose unknown hazards and should be used with caution. This Material Safety Data Sheet (MSDS) applies only to the material as packaged. If this product is combined with other materials, deteriorates, or becomes contaminated, it may pose hazards not mentioned in this MSDS. It shall be the user’s responsibility to develop proper methods of handling and personal protection based on the actual conditions of use. While this MSDS is based on technical data judged to be reliable, Spectrum Quality Products, Inc. assumes no responsibility for the completeness or accuracy of the information contained herein.
