SAFETY DATA SHEET

Preparation Date: 11/06/2013
Revision Date: 11/06/2013
Revision Number: G1

1. IDENTIFICATION

Product identifier
Product code: PH120
Product Name: PHENOL, FUSED CRYSTAL, USP

Other means of identification
Synonyms:
Monohydroxybenzene;
Benzenol;
Phenyl hyroxide;
Phenyllic acid;
Carbolic acid
Hydroxybenzene;
Monophenol;
Oxybenzene;
Phenic acid;
Phenylic alcohol
Phenyl hydrate

CAS #: 108-95-2
RTECS #: SJ3325000
CI#: Not available

Recommended use of the chemical and restrictions on use
Recommended use: Disinfectant. To induce cutaneous exfoliation. A local anesthetic (in weak solutions).
Uses advised against: No information available

Supplier: Spectrum Chemicals and Laboratory Products, Inc.
14422 South San Pedro St.
Gardena, CA  90248
(310) 516-8000

Order Online At: https://www.spectrumchemical.com

Emergency telephone number
Chemtrec 1-800-424-9300

Contact Person:
Martin LaBenz (West Coast)
Regina Wachenheim (East Coast)

2. HAZARDS IDENTIFICATION

Classification
This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

<table>
<thead>
<tr>

Product code: PH120  Product name: PHENOL, FUSED CRYSTAL, USP 1 / 15
Skin corrosion/irritation Category 1
Serious eye damage/eye irritation Category 1
Germ cell mutagenicity Category 2
Specific target organ toxicity (repeated exposure) Category 2

Label elements

Danger

Hazard statements
Harmful if swallowed
Toxic in contact with skin
Fatal if inhaled
Causes severe skin burns and eye damage
Suspected of causing genetic defects
May cause damage to organs through prolonged or repeated exposure

Hazards not otherwise classified (HNOC)
Not Applicable

Other hazards
Not available

Precautionary Statements - Prevention
Obtain special instructions before use
Do not handle until all safety precautions have been read and understood
Use personal protective equipment as required
Wash face, hands and any exposed skin thoroughly after handling
Do not eat, drink or smoke when using this product
Use only outdoors or in a well-ventilated area
Do not breathe dust/fume/gas/mist/vapors/spray
Wear respiratory protection

Precautionary Statements - Response
Specific treatment (see .? on this label)
Specific treatment is urgent (see .? on this label)
Immediately call a POISON CENTER or doctor/physician
Specific treatment (see .? on this label)
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
Immediately call a POISON CENTER or doctor/physician.
IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower
Wash contaminated clothing before reuse
IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Immediately call a POISON CENTER or doctor/physician.
IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell
Rinse mouth
Do NOT induce vomiting

Product code: PH120  Product name: PHENOL, FUSED CRYSTAL, USP
Precautionary Statements - Storage
Store locked up
Store in a well-ventilated place. Keep container tightly closed

Precautionary Statements - Disposal
Dispose of contents/container to an approved waste disposal plant

4. FIRST AID MEASURES

First aid measures

General Advice:
Poison information centres in each State capital city can provide additional assistance for scheduled poisons (13 1126). Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves. First aider needs to protect himself.

Skin Contact:
Wash off immediately with soap and plenty of water. Continue flushing with plenty of water for at least 15 minutes. Remove all contaminated clothes and shoes. Immediate medical attention is required. Call a physician immediately.

Eye Contact:
Flush eye with water for 15 minutes. Immediate medical attention is required. Call a physician immediately.

Inhalation:
Move to fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial respiration. WARNING! It may be hazardous to the person providing aid to give mouth-to-mouth resuscitation when the inhaled or ingested material is toxic, infectious or corrosive. Do not use mouth-to-mouth resuscitation if victim ingested or inhaled the substance; induce artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. Immediate medical attention is required. Call a physician immediately.

Ingestion:
Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Immediate medical attention is required. Call a physician or Poison Control Centre immediately.

Most important symptoms and effects, both acute and delayed

Symptoms

Indication of any immediate medical attention and special treatment needed
Notes to Physician:
Treat symptomatically

Protection of first-aiders
First-Aid Providers: Avoid exposure to blood or body fluids. Wear gloves and other necessary protective clothing. Dispose of contaminated clothing and equipment as bio-hazardous waste

5. FIRE-FIGHTING MEASURES

Extinguishing Media

Product code: PH120
Product name: PHENOL, FUSED CRYSTAL, USP
5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media: Dry chemical. Carbon dioxide (CO2). Water spray mist or foam. Alcohol-resistant foam.

Unsuitable Extinguishing Media: No information available.

Specific hazards arising from the chemical

Hazardous Combustion Products: Carbon monoxide; Carbon dioxide

Specific hazards: Combustible material. Containers may explode when heated. Contact with metals may evolve flammable hydrogen gas. When heated, vapors may form explosive mixtures with air: indoors, outdoors and sewers explosion hazards.

Special Protective Actions for Firefighters

Specific Methods: Dike fire-control water for later disposal; do not scatter the material. For larger fires, use water spray or fog. Cool containers with flooding quantities of water until well after fire is out.

Special Protective Equipment for Firefighters: As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal Precautions: Keep people away from and upwind of spill/leak. Ensure adequate ventilation. Remove all sources of ignition. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Use personal protective equipment. Avoid contact with skin, eyes and clothing.

Environmental precautions Prevent further leakage or spillage if safe to do so. Prevent entry into waterways, sewers, basements or confined areas. Do not let product enter drains. Should not be released into the environment.

Methods and material for containment and cleaning up

Methods for containment Stop leak if you can do it without risk. Cover with plastic sheet to prevent spreading.

Methods for cleaning up Sweep up and shovel into suitable containers for disposal. Clean contaminated surface thoroughly.

7. HANDLING AND STORAGE

Precautions for safe handling

Technical Measures/Precautions: Use only in area provided with appropriate exhaust ventilation. Keep away from open flames, hot surfaces and sources of ignition. Keep away from incompatible materials.

Safe Handling Advice: Wear personal protective equipment. Avoid contact with skin, eyes and clothing. Do not ingest. Do not breathe vapours/dust. Keep away from heat and sources of ignition. Handle in accordance with good industrial hygiene and safety practice.

Product code: PH120
Product name: PHENOL, FUSED CRYSTAL, USP

Appropriate engineering controls

Engineering measures to reduce exposure:
Ensure adequate ventilation. Use process enclosures, local exhaust ventilation, or other engineering controls to keep airborne levels below recommended exposure limits. If user operations generate dust, fume or mist, use ventilation to keep exposure to airborne contaminants below the exposure limit.

Individual protection measures, such as personal protective equipment

Personal Protective Equipment

Eye protection: Goggles. Safety glasses with side-shields.
Skin and body protection: Chemical resistant protective suit. Gloves. boots.
Respiratory protection: Respirator with combination filter for vapor/particulate..
Hygiene measures: Avoid contact with skin, eyes and clothing. When using, do not eat, drink or smoke. Wash hands and face before breaks and immediately after handling the product.

9. PHYSICAL AND CHEMICAL PROPERTIES

Product code: PH120
Product name: PHENOL, FUSED CRYSTAL, USP
9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state: Solid.

Molecular/Formula weight: 94.11

Flash Point Tested according to:
- Closed cup
- Open cup

Autoignition Temperature (°C/°F):
- 715 °C/1319 °F

Boiling point/range(°C/°F):
- 182 °C/359.6 °F

Density (g/cm3):
- 1.071

Evaporation rate:
- No information available

Odor threshold (ppm):
- 0.048

Miscibility:
- Miscible with Acetone

Solubility:
- Very soluble in alcohol
- Very soluble in chloroform
- Very soluble in Ether
- Very soluble in Glycerin
- Very soluble in carbon disulfide
- Very soluble in petrolatum
- Very soluble in aqueous alkali hydroxides
- Very soluble in volatile and fixed oils
- Soluble in Water
- Solubility in Water: 1 g/15 ml @ 20 °C; 82.8 g/l @ 25 °C

Appearance: Crystals. Crystalline.

Flash point (°C):
- 79

Lower Explosion Limit (%):
- 1.7%

Flashpoint (°C/°F):
- 79 °C/174.2°F
- 85 °C/185 °F

Upper Explosion Limit (%):
- 8.6%

Decomposition temperature(°C/°F):
- No information available

Specific gravity:
- 1.057

Viscosity:
- No information available

pH:
- No information available

Melting point/range(°C/°F):
- 41-42 °C/105.8-107.6 °F

Vapor pressure @ 20°C (kPa):
- 0.02-0.048

VOC content (g/L):
- No information available

10. STABILITY AND REACTIVITY

Reactivity
10. STABILITY AND REACTIVITY

Chemical stability
Stability: Stable at normal conditions
Possibility of Hazardous Reactions: Hazardous polymerization does not occur
Conditions to avoid: Heat. Ignition sources. Exposure to light. Turns pink or red on exposure to light.
Exposure to air. Exposure to moisture. Incompatible materials.
Formaldehyde. aliphatic amines.
Hazardous decomposition products: Carbon monoxide. Carbon dioxide.

Other Information
Corrosivity: Severe corrosive effect on Brass. Minor corrosive effect on bronze.
Special Remarks on Corrosivity: No information available

11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure
Principal Routes of Exposure: Ingestion. Inhalation. Skin.
Acute Toxicity
The following values are calculated based on chapter 3.1 of the GHS document.
ATEmix (inhalation-gas) 700mg/l
ATEmix (inhalation-dust/mist) 0.5mg/l
Component Information

Phenol - 108-95-2
LD50/oral/rat = 317mg/kg
LD50/oral/mouse = 270 mg/kg
LD50/dermal/rabbit = 630 mg/kg Dermal LD50 Rabbit
LD50/dermal/rat = 525 mg/kg Dermal LD50 Rat
669 mg/kg
LC50/inhalation/rat = 316 mg/m³ 4 h

Product code: PH120  Product name: PHENOL, FUSED CRYSTAL, USP
Product Information

LD50/oral/rat =
VALUE- Acute Tox Oral = 317mg/kg

LD50/oral/mouse =
Value - Acute Tox Oral = 270mg/kg

LD50/dermal/rabbit
VALUE-Acute Tox Dermal = 630mg/kg

LD50/dermal/rat
VALUE -Acute Tox Dermal = 525mg/kg

LC50/inhalation/rat
VALUE-Vapor = 0.32mg/l (4-hr)
VALUE-Gas = No information available
VALUE-Dust/Mist = No information available

LC50/Inhalation/mouse
VALUE-Vapor = No information available
VALUE - Gas = No information available
VALUE - Dust/Mist = No information available

Symptoms

Skin Contact: Causes skin burns. Phenol burns may be severe, but painless due to damage to the nerve endings causing numbness. The skin may turn white and opaque or dull gray and wrinkled. Later, it may turn gray-white or yellowish brown and may be deeply eroded and scarred. Black Gangrene may occur at the sight of contact. It may be absorbed through the skin. If absorbed through skin it may cause systemic effects. Toxic in contact with skin. If absorbed through the skin it may affect behavior/central nervous system and cause central nervous system effects. If absorbed through the skin, it may affect the liver and kidneys (nephritis, hematuria) and may induce cardiac arrhythmias.

Eye Contact: Causes eye burns. Corrosive to the eyes and may cause severe damage including blindness.

Inhalation
Severely irritating to the upper respiratory tract. It can irritate the lungs. It may cause pulmonary edema. Can cause dyspnea (shortness of breath and difficulty breathing). May affect respiration (respiratory depression). May affect behavior/central nervous system (somnolence). Inhalation of large amounts of vapor may be fatal. Volatility is low at room temperature, but hazard increases as temperature rises. Harmful contamination of the air will be reached rather slowly on evaporation of this substance at 20 deg. C. Inhalation of large quantities can cause system effects similar to that of ingestion.

Product code: PH120
Product name: PHENOL, FUSED CRYSTAL, USP
Ingestion

Harmful if swallowed. Causes digestive or gastrointestinal tract burns. Corrosive to the mouth, throat, and stomach. There is burning pain in the mouth and throat as well as white necrotic lesions in the mouth, esophagus and stomach. Ingestion may cause nausea, vomiting, diarrhea. May cause loss of appetite. May cause abdominal pain. May cause gastrointestinal bleeding. May cause pallor. May cause excessive sweating. May cause hemolytic anemia. May cause metabolic acidosis. May affect the cardiovascular system (hypotension). May cause methemoglobinemia, (the formation of methemoglobin in the blood which causes deficient oxygenation of the blood due to decreased available hemoglobin). Signs and symptoms of methemoglobinemia include shortness of breath, cyanosis (a bluish discoloration of the mucous membranes and unpigmented areas of the body), mental status changes such as headache, mental impairment, fatigue, muscular weakness, exercise intolerance, lightheadness, dizziness, incoordination, seizures, and loss of consciousness. Arterial blood with elevated methemoglobin levels has a characteristic chocolate-brown color as compared to normal bright red oxygen containing arterial blood. Severe methemoglobinemia is characterized by bradycardia or tachyarda (slow or fast heart beat), dysrhythmias, seizures, coma and death. It may cause central nervous system depression. May affect behavior/central nervous system (convulsions). May affect behavior/central nervous system (tremors). May affect behavior/central nervous system (dizziness, headache). May affect behavior/central nervous system (hallucinations, dizziness, nervousness, twitching, delirium). May affect respiration (dyspnea - difficulty breathing and shortness of breath). May affect respiration (tachypnea (rapid breathing)). May cause tinnitus. May cause pupilary dilation. May affect eyes (pinpoint pupils). May cause dim vision. May affect urinary system (kidneys). May affect liver.

Aspiration hazard

No information available

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Chronic Toxicity

Prolonged or repeated inhalation may cause bronchitis with coughing, phlegm, and/or shortness of breath. Prolonged or repeated ingestion may affect the liver, and kidneys. Prolonged or repeated ingestion may affect the liver (jaundice, liver function tests impaired). Prolonged or repeated ingestion may affect the blood (changes in red blood cell count). Prolonged or repeated ingestion may affect behavior/central nervous system. Prolonged or repeated ingestion may affect the cardiovascular system. Prolonged or repeated ingestion may affect the brain. Prolonged or repeated inhalation may affect the liver. Prolonged or repeated inhalation may affect the kidneys. Prolonged or repeated inhalation may affect the cardiovascular system. Prolonged or repeated ingestion may affect the blood (anemia). Prolonged or repeated inhalation may affect the blood (changes in serum composition). Signs and symptoms of chronic inhalation exposure may include headache, cough, weakness, fatigue, anorexia, vomiting, insomnia, nervousness, weight loss, paresthesia, ochronosis, and albuminuria. Other signs and symptoms of chronic exposure to phenol include vertigo, muscle aches and weakness, dark urine, nephritis, and hepatitis.

Sensitization:

No information available

Mutagenic Effects:

May affect genetic material
Animal experiments showed mutagenic effects
Mutagenic effects in mammalian somatic cells
Experiments with human lymphocytes have shown mutagenic effects
Experiments with animal lymphocytes have shown mutagenic effects
Mutations in microorganisms

Carcinogenic effects:

Not classifiable as to its carcinogenicity to humans. Not classifiable as a human carcinogen.

**Product code:** PH120

**Product name:** PHENOL, FUSED CRYSTAL, USP
13. DISPOSAL CONSIDERATIONS

Disposal Methods

Waste from residues / unused products:
Waste must be disposed of in accordance with Federal, State and Local regulation.

Contaminated packaging:
Empty containers should be taken for local recycling, recovery or waste disposal.

EU Classification

R-phrase(s)
R34 - Causes burns.
R68 - Possible risk of irreversible effects.
R23/24/25 - Toxic by inhalation, in contact with skin and if swallowed.
R48/20/21/22 - Harmful: danger of serious damage to health by prolonged exposure through inhalation, in contact with skin and if swallowed.

S-phrase(s)
S26 - In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
S28 - After contact with skin, wash immediately with plenty of water.
S45 - In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).
S1/2 - Keep locked up and out of the reach of children.
S24/25 - Avoid contact with skin and eyes.
S36/37/39 - Wear suitable protective clothing, gloves and eye/face protection.
