Engineering measures to reduce exposure:

Ensure adequate ventilation. Use process enclosures, local exhaust ventilation, or other engineering controls to keep airborne levels below recommended exposure limits. If user operations generate dust, fume or mist, use ventilation to keep exposure to airborne contaminants below the exposure limit.

Individual protection measures, such as personal protective equipment

Personal Protective Equipment

Eye protection:	Safety glasses with side-shields or Goggles	
Skin and body protection:	Chemical resistant apron Gloves Long sleeved clothing	
Respiratory protection:	Effective dust mask. Use a dust respirator under conditions where exposur the substance is apparent (e.g. generation of high concentration of dust (du clouds), inadequate ventilation, development of respiratory tract irritation), a engineering controls are not feasible. Be sure to use an approved/certified respirator or equivalent.	ist and
