1. IDENTIFICATION

Product identifier

Product code: SO180
Product Name: SODIUM LAURYL SULFATE, NF, EP, BP, JP

Other means of identification
Synonyms:
Sodium dodecyl sulfate; Aquarex methyl; Dodecyl alcohol, hydrogen sulfate, sodium salt; Dodecyl sulfate sodium; Dreft; Duponal; Gardinal; Irium; Lauryol Sodium Sulfate; Lauryl sulfate, sodium salt; Melanol CL; Perlandrol L; Sodium n-dodecyl sulfate; Sodium Lauryl Sulphate; Sodium monododecyl sulfate; Sodium monolauryl sulfate; Stepanol ME; Standapol WAQ; Stepanol WAQ; Witcolate C, Witcolate A

CAS #: 151-21-3
RTECS #: WT1050000
CI#: Not available

Recommended use of the chemical and restrictions on use

Recommended use: Emulsifying agent.
Uses advised against: No information available

Supplier:
Spectrum Chemical Mfg. Corp
14422 South San Pedro St.
Gardena, CA 90248
(310) 516-8000

Order Online At: https://www.spectrumchemical.com
Emergency telephone number: Chemtrec 1-800-424-9300
Contact Person: Tom Tyner (USA - West Coast)
Contact Person: Ibad Tirmiz (USA - East Coast)

2. HAZARDS IDENTIFICATION

Classification

This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

Considered a dangerous substance or mixture according to the Globally Harmonized System (GHS)

<table>

Label elements

Danger

Hazard statements
Harmful if swallowed
Toxic in contact with skin
Causes skin irritation
Causes serious eye irritation
May cause respiratory irritation
May form combustible dust concentrations in air

Hazard statements
Harmful if swallowed
Toxic in contact with skin
Causes skin irritation
Causes serious eye irritation
May cause respiratory irritation
May form combustible dust concentrations in air

Hazards not otherwise classified (HNOC)
Not Applicable

Other hazards
Toxic to aquatic life with long lasting effects
Toxic to aquatic life

Precautionary Statements - Prevention
Wash face, hands and any exposed skin thoroughly after handling
Do not eat, drink or smoke when using this product
Wear protective gloves/protective clothing/eye protection/face protection
Avoid breathing dust/fume/gas/mist/vapors/spray
Use only outdoors or in a well-ventilated area

Precautionary Statements - Response
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention.
IF ON SKIN: Wash with plenty of water
If skin irritation occurs: Get medical attention
Take off contaminated clothing and wash it before reuse
IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER or physician if you feel unwell.
IF SWALLOWED: Call a POISON CENTER or physician if you feel unwell
Rinse mouth

Precautionary Statements - Storage
Store in a well-ventilated place. Keep container tightly closed
Store locked up

Precautionary Statements - Disposal
Dispose of contents and container to an approved waste disposal plant in accordance with local, regional, national and international regulations as applicable

Product code: SO180
Product name: SODIUM LAURYL SULFATE, NF, EP, BP, JP

4. FIRST AID MEASURES

First aid measures

General Advice: Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves. First aider needs to protect himself. National Capital Poison Center in the United States can provide assistance if you have a poison emergency and need to talk to a poison specialist. Call 1-800-222-1222.

Skin Contact: Toxic in contact with skin. Wash off immediately with soap and plenty of water. Continue flushing with plenty of water for at least 15 minutes. Remove all contaminated clothes and shoes. Get medical attention. Call a physician or poison control center immediately.

Eye Contact: Flush eyes with water for 15 minutes. Get medical attention.

Inhalation: Move to fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial respiration. Get medical attention.

Ingestion: Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Harmful if swallowed. Obtain medical attention.

Most important symptoms and effects, both acute and delayed

Symptoms
- Causes eye irritation
- Causes skin irritation
- Ingestion may cause nausea, vomiting, and diarrhea
- May cause stomach bloating
- Somnolence
- Dust is irritating to respiratory tract
- May cause contact dermatitis

Indication of any immediate medical attention and special treatment needed

Notes to Physician: Treat symptomatically.

Protection of first-aiders

First-Aid Providers: Avoid exposure to blood or body fluids. Wear gloves and other necessary protective clothing. Dispose of contaminated clothing and equipment as bio-hazardous waste.

5. FIRE-FIGHTING MEASURES

Extinguishing Media

Suitable Extinguishing Media: Carbon dioxide (CO2). Dry chemical. Water spray mist or foam.

Unsuitable Extinguishing Media: No information available.

Specific hazards arising from the chemical

Specific hazards
May be combustible at high temperatures. Avoid generating dust. Fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard.

Special Protective Actions for Firefighters

Specific Methods:
No information available

Special Protective Equipment for Firefighters:
As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal Precautions:
Ensure adequate ventilation. Use personal protective equipment. Avoid contact with skin, eyes and clothing. Remove all sources of ignition. Avoid dust formation. Avoid dispersal of dust in the air. Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration. Non-sparking tools should be used.

Environmental precautions
Prevent further leakage or spillage. Prevent entry into waterways, sewers, basements or confined areas.

Methods and material for containment and cleaning up

Methods for containment
Stop leak if you can do it without risk. Cover with plastic sheet to prevent spreading.

Methods for cleaning up
Sweep up and shovel into suitable containers for disposal. Use only non-sparking tools. Avoid creating dust. Clean contaminated surface thoroughly.

7. HANDLING AND STORAGE

Precautions for safe handling

Technical Measures/Precautions:
Provide sufficient air exchange and/or exhaust in work rooms. Minimize dust generation and accumulation. Avoid dust formation. Dry powders can build static electricity charges when subjected to friction of transfer and mixing operations. All equipment used when handling the product must be grounded. Routine housekeeping should be instituted to ensure that dusts do not accumulate on surfaces. Keep away from incompatible materials.

Safe Handling Advice:
Wear personal protective equipment. Avoid contact with skin, eyes and clothing. Do not ingest. Do not breathe dust. Keep away from heat and sources of ignition. Handle in accordance with good industrial hygiene and safety practice.

Conditions for safe storage, including any incompatibilities

Technical Measures/Storage Conditions:
Keep container tightly closed in a dry and well-ventilated place. Store at room temperature in the original container. Store away from incompatible materials.

Incompatible Materials:
Strong oxidizing agents

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Appropriate engineering controls

**Engineering measures to reduce exposure:**

Ensure adequate ventilation. Use process enclosures, local exhaust ventilation, or other engineering controls to keep airborne levels below recommended exposure limits. If user operations generate dust, fume or mist, use ventilation to keep exposure to airborne contaminants below the exposure limit. Ensure that dust-handling systems (such as exhaust ducts, dust collectors, vessels, and processing equipment) are designed in a manner to prevent the escape of dust into the work area (i.e. there is no leakage from the equipment). It is recommended that all dust control equipment such as local exhaust ventilation and material transport systems involved in the handling of this product contain explosion relief vents or an explosion suppression system or an oxygen-deficient environment.

**Individual protection measures, such as personal protective equipment**

**Personal Protective Equipment**

**Eye protection:**

Goggles or Safety glasses with side-shields.

**Skin and body protection:**

Long sleeved clothing
Chemical resistant apron
Gloves

**Respiratory protection:**

Effective dust mask. Use a dust respirator under conditions where exposure to the substance is apparent (e.g. generation of high concentration of dust (dust clouds), inadequate ventilation, development of respiratory tract irritation), and engineering controls are not feasible. Be sure to use an approved/certified respirator or equivalent.

**Hygiene measures:**

Avoid contact with skin, eyes and clothing. Wash hands before breaks and immediately after handling the product. When using, do not eat, drink or smoke.

---

**9. PHYSICAL AND CHEMICAL PROPERTIES**

**Product code:** SO180

**Product name:** SODIUM LAURYL SULFATE, NF, EP, BP, JP

**Page:** 5 / 13
### Physical state:
- **Solid**

### Appearance:
- **Powder.**

### Odor:
- **Faint odor of fatty substances.**

### Taste
- **No information available.**

### Molecular/Formula weight (g/mole): 288.38

### Formula
- **C12-H25-O4-S-Na**

### Flammability (solid, gas):
- **No data available**

### Flash Point Tested according to:
- **Not available**

### Autoignition Temperature (°C/°F):
- **No information available**

### Upper Explosion Limit (%):
- **No information available**

### Melting point/range(°C/°F):
- **204-207 °C/399.2-404.6 °F**

### Boiling point/range(°C/°F):
- **No information available**

### Specific gravity:
- **0.4-0.48**

### pH
- **No information available**

### Evaporation rate:
- **No information available**

### Vapor density:
- **No information available**

### Odor threshold (ppm):
- **No information available**

### Partition coefficient (n-octanol/water):
- **1.6**

### Miscibility:
- **No information available**

### Solubility:
- **Soluble in Water**
- **Solubility in Water: 150 g/L at 20 °C**

### 10. STABILITY AND REACTIVITY

**Reactivity**
- Reactive with oxidizing agents

**Chemical stability**

**Stability:**
- Stable under recommended storage conditions.

**Possibility of Hazardous Reactions:**
- Hazardous polymerization does not occur

**Conditions to avoid:**
- Heat. Avoid dust formation. Fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard. Incompatible materials.

**Incompatible Materials:**
- Strong oxidizing agents

**Hazardous decomposition products:**

**Other Information**

**Corrosivity:**
- No information available

**Special Remarks on Corrosivity:**
- No information available

**Product code:** SO180
**Product name:** SODIUM LAURYL SULFATE, NF, EP, BP, JP

Symptoms

- **Skin Contact:**
  Toxic in contact with skin. Causes skin irritation.

- **Eye Contact:**
  Causes eye irritation.

- **Inhalation**
  Irritating to respiratory system. Symptoms may include coughing and shortness of breath. May cause sore throat.

- **Ingestion**
  Harmful if swallowed. Causes digestive (gastrointestinal) tract irritation. Ingestion

**Product code:** SO180  **Product name:** SODIUM LAURYL SULFATE, NF, EP, BP, JP

Page 7 / 13
may cause nausea, vomiting, diarrhea. May cause stomach bloating. May affect behavior/central nervous system (somnolence).

**Aspiration hazard**

No information available.

**Delayed and immediate effects as well as chronic effects from short and long-term exposure**

**Chronic Toxicity**

Prolonged or repeated ingestion may affect the liver. Prolonged or repeated skin contact may cause dryness of the skin. Prolonged skin contact may cause skin irritation and/or dermatitis.

**Sensitization:**

No information available.

**Mutagenic Effects:**

May affect genetic material
Mutations in microorganisms

**Carcinogenic effects:**

Not considered carcinogenic.

WHIMIS 2015 - GHS Classifications

WHIMIS 2015 Hazard Classification Information:

Component
Sodium Lauryl Sulfate
151-21-3 (100)

WHIMIS 2015 Hazard Classification
Acute toxicity - Oral - Category 4: H302 Harmful if swallowed;
Skin corrosion/irritation - Category 2: H315 Causes skin irritation;
Serious Eye Damage/Eye Irritation - Category 2A: H319 Causes serious eye irritation;
Combustible Dust - Category 1: May form combustible dust concentrations in air (factors such as combustibility and explosiveness of dusts including composition and shape and size of particles could cause substance to belong to 'Combustible dust' hazard class)
This product has been classified according to the hazard criteria of the HPR (Hazardous Products Regulation) and the SDS contains all of the information required by the HPR.

If this product is combined with other materials, deteriorates, or becomes contaminated, it may pose hazards not mentioned in this SDS. The physical properties reported in this SDS are obtained from the literature and do not constitute product specifications. Information contained herein does not constitute a warranty, whether expressed or implied, as to the safety, merchantability or fitness of the goods for a particular purpose. Spectrum Chemicals & Laboratory Products, Inc. assumes no responsibility for results obtained or for incidental or consequential damages, including lost profits, arising from the use of these data. No warranty against infringement of any patent, copyright or trademark is made or implied. It shall be the user’s responsibility to develop proper methods of handling and personal protection based on the actual conditions of use. While this SDS is based on technical data judged to be reliable, Spectrum assumes no responsibility for the completeness or accuracy of the information contained herein.
