**Manufacturer**

SPECTRUM LABORATORY PRODUCTS INC.
14422 S. SAN PEDRO STREET
GARDENA, CA 90248

**Commercial Name(s)**

Not available.

**Synonym**

17beta-(3-Cyclopentyl-1-oxopropoxy)androst-4-en-3-one; **Testosterone Cyclopentane Propionate**; 17beta-Hydroxyandrost-4-en-3-one cyclopentylpropionate

**Chemical Name**

Testosterone Cypionate

**Chemical Family**

Testosterone Cypionate

**Chemical Formula**

C27-H40-O3

**Supplier**

SPECTRUM LABORATORY PRODUCTS INC.
14422 S. SAN PEDRO STREET
GARDENA, CA 90248

**Toxicological Data on Ingredients**

LD50: Not available.
LC50: Not available.

---

**Section 3. Hazards Identification**

**Potential Acute Health Effects**

Slightly hazardous in case of skin contact (irritant, permeator), of eye contact (irritant), of ingestion, of inhalation.

**Potential Chronic Health Effects**

CARCINOGENIC EFFECTS: Not available.
MUTAGENIC EFFECTS: Not available.
TERATOGENIC EFFECTS: Classified POSSIBLE for human.
DEVELOPMENTAL TOXICITY: Classified Reproductive system/toxin/female, Reproductive system/toxin/male [POSSIBLE].

The substance may be toxic to blood, the reproductive system, liver.
Repeated or prolonged exposure to the substance can produce target organs damage.

---

**Continued on Next Page**
### Section 4. First Aid Measures

| Eye Contact | Check for and remove any contact lenses. In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention if irritation occurs. |
| Skin Contact | Wash with soap and water. Cover the irritated skin with an emollient. Get medical attention if irritation develops. |
| Serious Skin Contact | Not available. |
| Inhalation | If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention. |
| Serious Inhalation | Not available. |
| Ingestion | Do NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. If large quantities of this material are swallowed, call a physician immediately. Loosen tight clothing such as a collar, tie, belt or waistband. |
| Serious Ingestion | Not available. |

### Section 5. Fire and Explosion Data

| Flammability of the Product | May be combustible at high temperature. |
| Auto-Ignition Temperature | Not available. |
| Flash Points | CLOSED CUP: Higher than 93.3°C (200°F). |
| Flammable Limits | Not available. |
| Products of Combustion | These products are carbon oxides (CO, CO2). |
| Explosion Hazards in Presence of Various Substances | Slightly explosive in presence of open flames and sparks. Non-explosive in presence of shocks. |
| Fire Fighting Media and Instructions | SMALL FIRE: Use DRY chemical powder. LARGE FIRE: Use water spray, fog or foam. Do not use water jet. |
| Special Remarks on Fire Hazards | As with most organic solids, fire is possible at elevated temperatures. When heated to decomposition it emits acrid smoke and irritating fumes. |
| Special Remarks on Explosion Hazards | Fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard. |

### Section 6. Accidental Release Measures

| Small Spill | Use appropriate tools to put the spilled solid in a convenient waste disposal container. Finish cleaning by spreading water on the contaminated surface and dispose of according to local and regional authority requirements. |
| Large Spill | Use a shovel to put the material into a convenient waste disposal container. Finish cleaning by spreading water on the contaminated surface and allow to evacuate through the sanitary system. |

Continued on Next Page
### Section 7. Handling and Storage

**Precautions**
Keep away from heat. Keep away from sources of ignition. Ground all equipment containing material. Do not breathe dust. Wear suitable protective clothing. If you feel unwell, seek medical attention and show the label when possible. Keep away from incompatibles such as oxidizing agents.

**Storage**
Keep container tightly closed. Keep container in a cool, well-ventilated area. Sensitive to light. Store in light-resistant containers.

### Section 8. Exposure Controls/Personal Protection

**Engineering Controls**
Use process enclosures, local exhaust ventilation, or other engineering controls to keep airborne levels below recommended exposure limits. If user operations generate dust, fume or mist, use ventilation to keep exposure to airborne contaminants below the exposure limit.

**Personal Protection**
Safety glasses. Lab coat. Dust respirator. Be sure to use an approved/certified respirator or equivalent. Gloves.

**Personal Protection in Case of a Large Spill**
Splash goggles. Full suit. Dust respirator. Boots. Gloves. A self contained breathing apparatus should be used to avoid inhalation of the product. Suggested protective clothing might not be sufficient; consult a specialist BEFORE handling this product.

**Exposure Limits**
Not available.

### Section 9. Physical and Chemical Properties

**Physical state and appearance**
Solid. (Crystalline powder)

**Molecular Weight**
412.61 g/mole

**pH (1% soln/water)**
Not applicable.

**Boiling Point**
Not available.

**Melting Point**
98°C (208.4°F) - 104 C.

**Critical Temperature**
Not available.

**Specific Gravity**
Not available.

**Vapor Pressure**
Not applicable.

**Vapor Density**
Not available.

**Volatility**
Not available.

**Odor Threshold**
Not available.

**Water/Oil Dist. Coeff.**
Not available.

**Ionicity (in Water)**
Not available.

**Dispersion Properties**
Not available.

**Solubility**

### Section 10. Stability and Reactivity Data

**Stability**
The product is stable.

**Instability Temperature**
Not available.

**Conditions of Instability**
Excess heat and incompatible materials

**Incompatibility with various substances**
Reactive with oxidizing agents.

<td>LD50 [Mouse] - Route: Intraperitoneal; Dose: &gt;1000 mg/ kg</td>
</tr>
<tr>
<td>Special Remarks on Chronic Effects on Humans</td>
<td>May cause adverse reproductive effects and birth defects. May affect genetic material. May cause cancer</td>
</tr>
<tr>
<td>Special Remarks on other Toxic Effects on Humans</td>
<td>Potential Effects of Overexposure: Anabolic steroid Skin: May cause skin irritation. May be absorbed through skin Eyes: Dust may cause eye irritation Inhalation: Dust may cause respiratory tract irritation. Ingestion: May cause gastrointestinal tract irritation with upset stomach or stomach pain, nausea, vomiting, diarrhea. May cause water and salt retention (edema), weight gain, acne and muscular development. Other symptoms may include headache, unusual tiredness, dizziness, trouble sleeping, increased pubic hair growth, change in sex drive. Females may also experience virilizing side effects such as facial hair, deepening of the voice, and menstrual irregularities. Effects of chronic overexposure in women include male-pattern baldness, excessive body hair, prominent musculature, and hypertrophy of the clitoris, decreased breast size, oily skin, impaired fertility. Effects generally slowly subside on discontinuation of exposure, but with prolonged overexposure in women some effects may become irreversible. Overexposure in males may lead to feminizing side effects (breast enlargement and or soreness), and decreased spermatogenesis or impaired fertility due to inhibition of gonadotropin secretion and metabolic conversion of androgens to estrogens. Other symptoms of overexposure in males may include frequent or continuing erections, chills, pain in the scrotum or groin, difficulty urinating, decreased testicle size, and aggressive behavior. May also affect blood(clotting disorders, elevated cholesterol levels, change in red blood cell count), and liver. Effects on the liver may cause yellowing of the skin or eyes (jaundice). Chronic exposure may cause hypersensitization, masculinization in females, heart problems in males, impaired fertility in males and females and cancer. Medical Conditions Aggravated by Exposure: Hypersensitivity to material, males with breast or prostate cancer, hypercalcemia resulting from osteolysis, pre-existing liver, kidney, or heart problems, and enlarged prostate gland.</td>

**Section 13. Disposal Considerations**

**Waste Disposal**  
Waste must be disposed of in accordance with federal, state and local environmental control regulations.

---

**Section 14. Transport Information**

**DOT Classification**  
Not a DOT controlled material (United States).

**Identification**  
Not applicable.

**Special Provisions for Transport**  
Not applicable.

**DOT (Pictograms)**

**Section 15. Other Regulatory Information and Pictograms**

**Federal and State Regulations**

- California prop. 65: This product contains the following ingredients for which the State of California has found to cause cancer, birth defects or other reproductive harm, which would require a warning under the statute: Testosterone cypionate
- California prop. 65: This product contains the following ingredients for which the State of California has found to cause reproductive harm (female) which would require a warning under the statute: Testosterone cypionate (Listed as Anabolic Steroid)
- California prop. 65: This product contains the following ingredients for which the State of California has found to cause reproductive harm (male) which would require a warning under the statute: Testosterone cypionate (Listed as Anabolic Steroid)
- California prop. 65: This product contains the following ingredients for which the State of California has found to cause birth defects which would require a warning under the statute: Testosterone cypionate
- California prop. 65: This product contains the following ingredients for which the State of California has found to cause cancer which would require a warning under the statute: Testosterone cypionate (Listed as Testosterone and its Esters)

**California Proposition 65 Warnings**

- California prop. 65: This product contains the following ingredients for which the State of California has found to cause cancer which would require a warning under the statute: Testosterone cypionate
- California prop. 65: This product contains the following ingredients for which the State of California has found to cause birth defects which would require a warning under the statute: Testosterone cypionate

**Other Regulations**

- EINECS: This product is on the European Inventory of Existing Commercial Chemical Substances.

**Other Classifications**

- WHMIS (Canada): Not controlled under WHMIS (Canada).
- DSCL (EEC): R45- May cause cancer. R63- Possible risk of harm to the unborn child.
- S36/37- Wear suitable protective clothing and gloves. S46- If swallowed, seek medical advice immediately and show this container or label. S53- Avoid exposure - obtain special instructions before use.
