| No data available                                                                              |                                                                                                                                                                                                                                   |  |  |
| 5. FIRE-FIGHTING MEASURES                                                                      |                                                                                                                                                                                                                                   |  |  |
| Suitable extinguishing media:                                                                  | Dry chemical, foam, water spray, carbon dioxide.                                                                                                                                                                                  |  |  |
| Specific hazards arising from the chemical:                                                    | Take care as it may decompose upon combustion or in high temperatures to generate poisonous fume                                                                                                                                  |  |  |
| Hazardous combustion products:                                                                 | These products include: Carbon oxides Nitrogen oxides Sulfur oxides                                                                                                                                                               |  |  |
| Other specific hazards:                                                                        | Closed containers may explode from heat of a fire.                                                                                                                                                                                |  |  |
| Advice for firefighters:                                                                       | Wear self-contained breathing apparatus if possible.                                                                                                                                                                              |  |  |
| 6. ACCIDENTAL RELEASE MEASU                                                                    | RES                                                                                                                                                                                                                               |  |  |
| Personal precautions, protective equipment and emergency procedures:                           | Use extra personal protective equipment (self-contained breathing apparatus). Keep people away from and upwind of spill/leak. Entry to non-involved personnel should be controlled around the leakage area by roping off, etc.    |  |  |
| Environmental precautions:                                                                     | Prevent product from entering drains.                                                                                                                                                                                             |  |  |
| Methods and materials for containment<br>and cleaning up:                                      | Sweep dust to collect it into an airtight container, taking care not to disperse it. Adhered or collected material should be promptly disposed of, in accordance with appropriate laws and regulations.                           |  |  |
| 7. HANDLING AND STORAGE                                                                        |                                                                                                                                                                                                                                   |  |  |
| Precautions for safe handling:                                                                 | Handling is performed in a well ventilated place. Wear suitable protective equipment. Prevent<br>dispersion of dust. Wash hands and face thoroughly after handling.<br>Use a local exhaust if dust or aerosol will be generated.  |  |  |
|                                                                                                | Avoid contact with skin, eyes and clothing.                                                                                                                                                                                       |  |  |

| Disposal of product:                                | Recycle to process if possible. It is the generator's responsibility to comply with Federal, State and Local rules and regulations. You may be able to dissolve or mix material with a combustible solvent and burn in a chemical incinerator equipped with an afterburner and scrubber system. This section is intended to provide assistance but does not replace these laws, nor does compliance in accordance with this section ensure regulatory compliance according to the law. US EPA guidelines for Identification and Listing of Hazardous Waste are listed in 40 CFR Parts 261. The product should not be allowed to enter the environment, drains, water ways, or the soil. |  |  |  |
| Disposal of container:                              | Dispose of as unused product. Do not re-use empty containers.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |  |  |  |
| Other considerations:                               | Observe all federal, state and local regulations when disposing of the substance.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |  |  |  |

#### 16. OTHER INFORMATION

#### Revision date: 07/06/2018 Revision number: 1.1

TCI chemicals are for research purposes only and are NOT intended for use as drugs, food additives, households, or pesticides. The information herein is believed to be correct, but does not claim to be all inclusive and should be used only as a guide. Neither the above named supplier nor any of its affiliates or subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All chemical reagents must be handled with the recognition that their chemical, physiological, toxicological, and hazardous properties have not been fully investigated or determined. All chemical reagents should be handled only by individuals who are familiar with their potential hazards and who have been fully trained in proper safety, laboratory, and chemical handling procedures. Although certain hazards are described herein, we can not guarantee that these are the only hazards which exist. Our SDS are based only on data available at the time of shipping and are subject to change without notice as new information is obtained. Avoid long storage periods since the product is subject to degradation with age and may become more dangerous or hazardous. It is the responsibility of the user to request updated SDS for products that are stored for extended periods. Disposal of unused product must be undertaken by qualified personnel who are knowledgeable in all applicable regulations and follow all pertinent safety precautions including the use of appropriate protective equipment (e.g. protective goggles, protective clothing, breathing equipment, face mask, fume hood). For proper handling and disposal, always comply with federal, state and local regulations.
