Polyvinylpyrrolidone, Cross-linked

Item Number  P1347  
CAS Number  25249-54-1  
MDL Number  
Molecular Formula  
Molecular Weight  

Description

Polyvinylpyrrolidone, Cross-linked, also known as called polyvidone or povidone, is a water-soluble polymer. It has been used as an adhesive, emulsifier, thickening agent and in molecular biology as a blocking agent during Southern blot analysis as a component of Denhardt's buffer. Ungraded products supplied by Spectrum are indicative of a grade suitable for general industrial use or research purposes and typically are not suitable for human consumption or therapeutic use.
