

RE: Residual Solvents - Benzethonium Chloride, USP (Cat# BE129)

To Whom It May Concern:

Thank you for your interest in Spectrum high quality chemicals.

The Class 2 solvents Toluene and Xylene are present in the above mentioned material below the limits of 890 ppm and 2170 ppm, respectively. The Class 3 solvents Acetone and Methylethylketone are each present in the above mentioned material below their individual limit of 5000 ppm. These limits comply with the requirements of the USP <467> Residual Solvents and the ICH Q3C Residual Solvents Guideline.

No Class 1 or other solvents are used or produced in the manufacture of this product.

For lot-specific information, please refer to the respective Certificate of Analysis.

If you have any further questions, please contact us by telephone at 1(800)772-8786 Option 2, or by email at TechServices@spectrumchemical.com.

Sincerely,

Technical Services
Spectrum Chemical Mfg. Corp.
