| Section 6. Accidental Release Measures                 |                                                                                                                                                                         |  |  |  |  |  |

| Small Spill | Use appropriate tools to put the spilled solid in a convenient waste disposal container. Finish cleaning by spreading water on the contaminated surface and dispose of according to local and regional authority requirements. |
|-------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Large Spill | Use a shovel to put the material into a convenient waste disposal container. Finish cleaning by spreading water on the contaminated surface and allow to evacuate through the sanitary system.                                 |

#### Section 7. Handling and Storage

| Precautions |  |
|-------------|--|
|-------------|--|

Keep away from heat. Keep away from sources of ignition. Empty containers pose a fire risk, evaporate the residue under a fume hood. Ground all equipment containing material. Do not breathe dust. Avoid contact with eyes. Wear suitable protective clothing. If you feel unwell, seek medical attention and show the label when possible.

Storage

Keep container tightly closed. Keep container in a cool, well-ventilated area.

#### Section 8. Exposure Controls/Personal Protection

| Engineering Controls                            | Use process enclosures, local exhaust ventilation, or other engineering controls to keep airborne levels below recommended exposure limits. If user operations generate dust, fume or mist, use ventilation to keep exposure to airborne contaminants below the exposure limit. |  |  |  |
|-------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|--|--|
| Personal Protection                             | Splash goggles. Lab coat. Dust respirator. Be sure to use an approved/certified respirator or equivalent.<br>Gloves.                                                                                                                                                            |  |  |  |
| Personal Protection in Case of<br>a Large Spill | Splash goggles. Full suit. Dust respirator. Boots. Gloves. A self contained breathing apparatus should be used to avoid inhalation of the product. Suggested protective clothing might not be sufficient; consult a specialist BEFORE handling this product.                    |  |  |  |
| Exposure Limits                                 | Not available.                                                                                                                                                                                                                                                                  |  |  |  |
