

SAFETY DATA SHEET

Preparation Date: 3/08/2016 Revision Date: 3/08/2016 Revision Number: G1

1. IDENTIFICATION

Product identifier

Product code: LI113

Product Name: LINSEED OIL, RAW

Other means of identification

Synonyms: Flaxseed Oil, raw
CAS #: 8001-26-1
RTECS # Ol9690000
CI#: Not available

Recommended use of the chemical and restrictions on use

Recommended use: Paints. Varnishes. **Uses advised against** No information available

Supplier: Spectrum Chemical Mfg. Corp

14422 South San Pedro St.

Gardena, CA 90248 (310) 516-8000

Order Online At: https://www.spectrumchemical.com

Emergency telephone numberChemtrec 1-800-424-9300Contact Person:Martin LaBenz (West Coast)Contact Person:Ibad Tirmiz (East Coast)

2. HAZARDS IDENTIFICATION

Classification

This chemical is not considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

Not a dangerous substance or mixture according to the Globally Harmonized System (GHS)

Label elements

lot classified	

Hazards not otherwise classified (HNOC)

Not Applicable

Other hazards

Not available

Product code: LI113 Product name: LINSEED OIL, RAW 1/11

3. COMPOSITION/INFORMATION ON INGREDIENTS

Components	CAS-No.	Weight %
Linseed Oil, raw	8001-26-1	100
8001-26-1		

4. FIRST AID MEASURES

First aid measures

General Advice: Poison information centers in each State capital city can provide additional

assistance for scheduled poisons (13 1126)

Skin Contact: Wash off immediately with soap and plenty of water removing all contaminated clothes and

shoes. Get medical attention if irritation develops. Consult a physician if necessary.

Eye Contact: Flush eyes with water for 15 minutes. Get medical attention if irritation occurs. If symptoms

persist, call a physician.

Inhalation: Move to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen.

Get medical attention.

Ingestion: Do not induce vomiting without medical advice. Never give anything by mouth to an

unconscious person. Consult a physician if necessary.

Most important symptoms and effects, both acute and delayed

Symptoms May cause digestive (gastrointestinal) tract irritation. May cause nausea and vomiting. May

cause skin irritation in sensitive individuals. May affect the liver.

Indication of any immediate medical attention and special treatment needed

Notes to Physician: Treat symptomatically

Protection of first-aiders

First-Aid Providers: Avoid exposure to blood or body fluids. Wear gloves and other necessary protective clothing. Dispose of contaminated clothing and equipment as bio-hazardous waste

5. FIRE-FIGHTING MEASURES

Extinguishing Media

Suitable Extinguishing Media: Dry chemical. Carbon dioxide (CO2). Water spray, mist, or

foam.

Unsuitable Extinguishing Media:Do not use a solid (straight) water stream as it may scatter

and spread fire.

Specific hazards arising from the chemical

Hazardous Combustion Products: Carbon oxides

Specific hazards: May be combustible at high temperatures

May be ignited by heat, sparks or flames

Container explosion may occur under fire conditions or when

heated

May ignite combustibles (wood, paper, oil, clothing, etc.)

Special Protective Actions for Firefighters

Product code: LI113 Product name: LINSEED OIL, RAW 2 / 11

Specific Methods: Water mist may be used to cool closed containers. For

larger fires, use water spray or fog. Cool containers with flooding quantities of water until well after fire is out. Do not

use water on material itself. Do not get water inside

containers.

Special Protective Equipment for Firefighters: As in a

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent)

and full protective gear

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal Precautions: Ensure adequate ventilation. Avoid contact with skin, eyes and clothing. Wear personal

protective equipment. Remove all sources of ignition.

Environmental precautions Prevent further leakage or spillage if safe to do so. Prevent product from entering

drains.

Methods and material for containment and cleaning up

Methods for containmentStop leak if you can do it without risk. Absorb spill with inert material (e.g. vermiculite,

dry sand or earth).

Methods for cleaning up

Use appropriate tools to put the spilled material in a suitable chemical waste disposal

container. Do not use combustible materials such as paper towels, sawdust, clothing,

etc. to clean up spill. Clean contaminated surface thoroughly.

7. HANDLING AND STORAGE

Precautions for safe handling

Technical Measures/Precautions:

Provide sufficient air exchange and/or exhaust in work rooms. Keep away from incompatible materials.

Safe Handling Advice

Wear personal protective equipment. Avoid contact with skin, eyes and clothing. Use only in well-ventilated areas. Do not breathe vapors or spray mist. Do not ingest. Keep away from heat and sources of ignition. Handle in accordance with good industrial hygiene and safety practice.

Conditions for safe storage, including any incompatibilities

Technical Measures/Storage Conditions:

Keep containers tightly closed in a dry, cool and well-ventilated place. Store at room temperature in the original container. Store away from incompatible materials.

Incompatible Materials:

Strong oxidizing agents. Chlorine. Combustible materials.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters

National occupational exposure limits

United States

Australia and Mexico

Components	Australia	Mexico
Linseed Oil, raw	None	None
8001-26-1		

Appropriate engineering controls

Engineering measures to reduce exposure: Ensure adequate ventilation, especially in confined areas.

Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapors and mist below

their respective threshold limit value.

Individual protection measures, such as personal protective equipment

Personal Protective Equipment

Eye protection: Goggles or Safety glasses with side-shields

Skin and body protection: Chemical resistant apron. Gloves. Long sleeved clothing.

Respiratory protection: Respiratory protection is not necessary for normal handling. Good room ventilation

or use of local exhaust (fume hood) is sufficient. Use a vapor respirator under conditions where exposure to the substance is apparent (e.g. generation of high concentrations of mist or vapor, inadequate ventilation, development of respiratory tract irritation), and engineering controls are not feasible. Be sure to use an

approved/certified respirator or equivalent.

Hygiene measures: Avoid contact with skin, eyes and clothing. When using, do not eat, drink or smoke.

Wash hands before breaks and immediately after handling the product.

9. PHYSICAL AND CHEMICAL PROPERTIES

Product code: LI113 Product name: LINSEED OIL, RAW 4 / 11

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state: Appearance:

Liquid Clear. Oily. Amber, Yellow, Brown,

Odor: Taste Formula:

Bland. No information available Vegetable-like.

Molecular/Formula weight: Flammability: Flash point (°C):

No information available No information available 222

Flashpoint (°C/°F): **Autoignition Temperature (°C/°F):** Flash Point Tested according to:

No information available

Viscosity: Miscibility: Solubility: Insoluble in water

No information available Miscible in Chloroform

Miscible with Carbon disulfide

Miscible with Ether

Miscible with Petroleum Ether

10. STABILITY AND REACTIVITY

Reactivity

Reactive with strong oxidizing agents

Liquid chlorine reacts explosively with linseed oil

It may ignite spontaneously if absorbed by combustible materials such as paper, rags, insulation, saw dust

Chemical stability

Stability: Stable under recommended storage conditions. Exposed to air, it gradually thickens, becomes

darker and acquired a more prounced odor and taste.

Possibility of Hazardous Reactions: May polymerize on exposure to air

Conditions to avoid: Heat. Ignition sources. Exposure to air. Incompatible materials.

Incompatible Materials: Strong oxidizing agents. Chlorine. Combustible materials.

Hazardous decomposition products: No information available

Other Information

No information available Corrosivity:

Special Remarks on Corrosivity: No information available

5/11 Product code: LI113 Product name: LINSEED OIL. RAW

11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure

Principal Routes of Exposure:

Ingestion. Skin.

Acute Toxicity

Component Information

Linseed Oil, raw - 8001-26-1

Symptoms

Skin Contact: May cause skin irritation. It may cause mild skin irritation. It may be absorbed through

the skin, but no harmful effects from skin absorption have been reported.

Eye Contact: May cause eye irritation

Inhalation May cause irritation of respiratory tract.

Ingestion May cause digestive (gastointestinal) tract irritation. Ingestion may cause nausea,

vomiting. May affect liver .

Aspiration hazard No information available

Product code: LI113 Product name: LINSEED OIL, RAW 6 / 11

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Prolonged or repeated ingestion may affect the liver **Chronic Toxicity**

Prolonged or repeated ingestion may affect the blood (changes in serum

composition)

Sensitive individuals may experience dermatitis after prolonged exposure of the oil

on skin

Sensitization: No information available

Mutagenic Effects: No information available

Not considered carcinogenic Carcinogenic effects:
