# SAFETY DATA SHEET spectrum®

Revision date 09-May-2022

1. Identification					
Product identifier					
Product Name	PETROLEUM ETHER, B.R. 60 DEG -90 DEG C, REAGENT				
Other means of identification					
Product Code(s)	P1050				
UN/ID no	UN1268				
Synonyms	None				
Recommended use of the chemica	and restrictions on use				
Recommended use	No information available				
Restrictions on use	No information available				
Details of the supplier of the safety	data sheet				
Supplier Address Spectrum Chemical Mfg. Corp. 14422 South San Pedro St. Gardena, CA 90248 (310) 516-8000					
Emergency telephone number					

**Emergency Telephone** 

Chemtrec 1-800-424-9300

## 2. Hazard(s) identification

#### Classification

Acute toxicity - Inhalation (Gases)	Category 4
Acute toxicity - Inhalation (Vapors)	Category 4
Skin corrosion/irritation	Category 2
Serious eye damage/eye irritation	Category 2A
Specific target organ toxicity (single exposure)	Category 3
Specific target organ toxicity (repeated exposure)	Category 2
Aspiration hazard	Category 1
Flammable liquids	Category 2

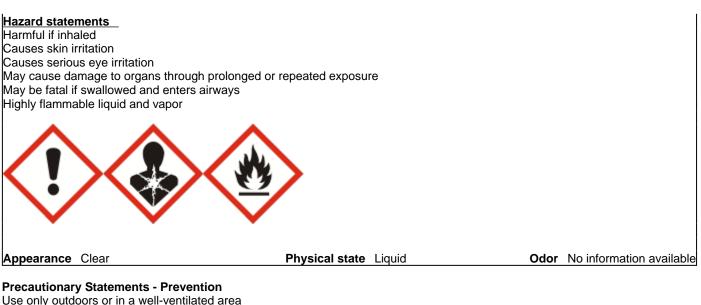

Hazards not otherwise classified (HNOC)

Not applicable

## Label elements

#### **Revision Number** 2

Use only outdoors or in a well-ventilated area Wash face, hands and any exposed skin thoroughly after handling Do not breathe dust/fume/gas/mist/vapors/spray Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking Keep container tightly closed Ground/bond container and receiving equipment Use explosion-proof electrical/ ventilating / lighting/ .? / equipment Use only non-sparking tools Take precautionary measures against static discharge Wear protective gloves/eye protection/face protection Keep cool

#### **Precautionary Statements - Response**

Specific treatment (see .? on this label) Get medical advice/attention if you feel unwell IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing If eye irritation persists: Get medical advice/attention If skin irritation occurs: Get medical advice/attention IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/ shower Wash contaminated clothing before reuse IF INHALED: Remove person to fresh air and keep comfortable for breathing Call a POISON CENTER or doctor if you feel unwell IF SWALLOWED: Immediately call a POISON CENTER or doctor Do NOT induce vomiting In case of fire: Use CO2, dry chemical, or foam to extinguish

#### Precautionary Statements - Storage

Store locked up. Store in a well-ventilated place. Keep container tightly closed

#### **Precautionary Statements - Disposal**

Dispose of contents/container to an approved waste disposal plant

#### Other information

No information available.

#### 3. Composition/information on ingredients

#### Substance

Chemical name	CAS No	Weight-%	Trade secret
Petroleum Ether	8032-32-4	100	*

\*The exact percentage (concentration) of composition has been withheld as a trade secret.

## 4. First-aid measures

#### **Description of first aid measures**

General advice	Show this safety data sheet to the doctor in attendance. Immediate medical attention is		
	required.		
Inhalation	Remove to fresh air. Aspiration into lungs can produce severe lung damage. If breathing has stopped, give artificial respiration. Get medical attention immediately. Avoid direct contact with skin. Use barrier to give mouth-to-mouth resuscitation. If breathing is difficult, (trained personnel should) give oxygen. Get immediate medical advice/attention. Delayed pulmonary edema may occur.		
Eye contact	Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Keep eye wide open while rinsing. Do not rub affected area. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.		
Skin contact	Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention if irritation develops and persists.		
Ingestion	Do NOT induce vomiting. Clean mouth with water and drink afterwards plenty of water. Never give anything by mouth to an unconscious person. ASPIRATION HAZARD IF SWALLOWED - CAN ENTER LUNGS AND CAUSE DAMAGE. If vomiting occurs spontaneously, keep head below hips to prevent aspiration. Get immediate medical advice/attention.		
Self-protection of the first aider	Remove all sources of ignition. Ensure that medical personnel are aware of the material(s) involved, take precautions to protect themselves and prevent spread of contamination. Use personal protective equipment as required. See section 8 for more information. Avoid direct contact with skin. Use barrier to give mouth-to-mouth resuscitation. Avoid contact with skin, eyes or clothing. Avoid breathing vapors or mists.		
Most important symptoms and effe	cts, both acute and delayed		
Symptoms	Difficulty in breathing. Coughing and/ or wheezing. Dizziness. May cause redness and tearing of the eyes. Burning sensation.		
Indication of any immediate medical attention and special treatment needed			
Note to physicians	Because of the danger of aspiration, emesis or gastric lavage should not be employed unless the risk is justified by the presence of additional toxic substances.		

## 5. Fire-fighting measures

Suitable Extinguishing Media Large Fire	Dry chemical. Carbon dioxide (CO2). water spray. Alcohol resistant foam. CAUTION: Use of water spray when fighting fire may be inefficient.		
Unsuitable extinguishing media	Do not scatter spilled material with high pressure water streams.		
Specific hazards arising from the chemical	risk of ignition. Keep product and empty container away from heat and sources of ignition. In the event of fire, cool tanks with water spray. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.		
Hazardous combustion products	Carbon Monoxide, Carbon Dioxide.		
Explosion data Sensitivity to mechanical impac	ct none.		
Sensitivity to static discharge	yes.		
Special protective equipment for	Firefighters should wear self-contained breathing apparatus and full firefighting turnout		

#### 6. Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

Personal precautions	Evacuate personnel to safe areas. Use personal protective equipment as required. See section 8 for more information. Avoid contact with skin, eyes or clothing. Ensure adequate ventilation. Keep people away from and upwind of spill/leak. ELIMINATE all ignition source (no smoking, flares, sparks or flames in immediate area). Pay attention to flashback. Take precautionary measures against static discharges. All equipment used when handling the product must be grounded. Do not touch or walk through spilled material. Avoid breathing vapors or mists.	
Other information	Ventilate the area. Refer to protective measures listed in Sections 7 and 8.	
Methods and material for conta	inment and cleaning up	
Methods for containment	Stop leak if you can do it without risk. Do not touch or walk through spilled material. A vapor suppressing foam may be used to reduce vapors. Dike far ahead of spill to collect runoff water. Keep out of drains, sewers, ditches and waterways. Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal.	
Methods for cleaning up	Take precautionary measures against static discharges. Dam up. Soak up with inert absorbent material. Pick up and transfer to properly labeled containers.	

#### 7. Handling and storage

#### Precautions for safe handling

Advice on safe handling Use personal protection equipment. Avoid breathing vapors or mists. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Use grounding and bonding connection when transferring this material to prevent static discharge, fire or explosion. Use with local exhaust ventilation. Use spark-proof tools and explosion-proof equipment. Keep in an area equipped with sprinklers. Use according to package label instructions. Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin, eyes or clothing. Do not eat, drink or smoke when using this product. Take off contaminated clothing and wash before reuse. In case of insufficient ventilation, wear suitable respiratory equipment.

#### Conditions for safe storage, including any incompatibilities

Storage ConditionsKeep containers tightly closed in a dry, cool and well-ventilated place. Keep away from<br/>heat, sparks, flame and other sources of ignition (i.e., pilot lights, electric motors and static<br/>electricity). Keep in properly labeled containers. Do not store near combustible materials.<br/>Keep in an area equipped with sprinklers. Store in accordance with the particular national<br/>regulations. Store in accordance with local regulations. Store locked up. Keep out of the<br/>reach of children. Store away from other materials.

#### 8. Exposure controls/personal protection

#### Control parameters

Exposure Limits

The following ingredients are the only ingredients of the product above the cut-off level (or level that contributes to the hazard classification of the mixture) which have an exposure limit applicable in the region for which this safety data sheet is intended or other recommended limit. At this time, the other relevant constituents have no known exposure limits from the sources listed here.

#### Appropriate engineering controls

Engineering controls	Showers Eyewash stations Ventilation systems.
Individual protection measures, such	ch as personal protective equipment
Eye/face protection	Tight sealing safety goggles.
Hand protection	Wear suitable gloves. Impervious gloves.
Skin and body protection	Wear suitable protective clothing. Long sleeved clothing. Chemical resistant apron. Antistatic boots.
Respiratory protection	No protective equipment is needed under normal use conditions. If exposure limits are exceeded or irritation is experienced, ventilation and evacuation may be required.
General hygiene considerations	Do not eat, drink or smoke when using this product. Contaminated work clothing should not be allowed out of the workplace. Regular cleaning of equipment, work area and clothing is recommended. Wash hands before breaks and immediately after handling the product. Wear suitable gloves and eye/face protection. Avoid contact with skin, eyes or clothing.

## 9. Physical and chemical properties

#### Information on basic physical and chemical properties

Dhysical state		
Physical state	Liquid	
Appearance	Clear	
Color	Colorless	
Odor	No information available	
Odor threshold	No information available	
Property	Values	Remarks • Method
pH	no data available	None known
Melting point / freezing point	no data available	None known
Boiling point / boiling range	20 - 40 °C / 68 - 104 °F	None known
Flash point	-18 °C / -0.4 °F	CC (closed cup)
Evaporation rate	no data available	None known
	no data available	None known
Flammability (solid, gas) Flammability Limit in Air	no uala avaliable	None known
	5.9%	
Upper flammability or explosive limits	5.9%	
	4 40/	
Lower flammability or explosive	1.1%	
limits	Nie dete euroliekie	None known
Vapor pressure	No data available	
Vapor density	no data available	None known
Vapor density Relative density	no data available 0.6 - 7.5	None known None known
Vapor density Relative density Water solubility	no data available 0.6 - 7.5 Insoluble in water	None known None known None known
Vapor density Relative density Water solubility Solubility(ies)	no data available 0.6 - 7.5 Insoluble in water Miscible with many organic solvents	None known None known None known None known
Vapor density Relative density Water solubility Solubility(ies) Partition coefficient	no data available 0.6 - 7.5 Insoluble in water Miscible with many organic solvents No data available	None known None known None known None known None known
Vapor density Relative density Water solubility Solubility(ies) Partition coefficient Autoignition temperature	no data available 0.6 - 7.5 Insoluble in water Miscible with many organic solvents	None known None known None known None known None known None known
Vapor density Relative density Water solubility Solubility(ies) Partition coefficient Autoignition temperature Decomposition temperature	no data available 0.6 - 7.5 Insoluble in water Miscible with many organic solvents No data available 288 °C / 550.4 °F	None known None known None known None known None known None known
Vapor density Relative density Water solubility Solubility(ies) Partition coefficient Autoignition temperature Decomposition temperature Kinematic viscosity	no data available 0.6 - 7.5 Insoluble in water Miscible with many organic solvents No data available 288 °C / 550.4 °F no data available	None known None known None known None known None known None known None known
Vapor density Relative density Water solubility Solubility(ies) Partition coefficient Autoignition temperature Decomposition temperature	no data available 0.6 - 7.5 Insoluble in water Miscible with many organic solvents No data available 288 °C / 550.4 °F	None known None known None known None known None known None known
Vapor density Relative density Water solubility Solubility(ies) Partition coefficient Autoignition temperature Decomposition temperature Kinematic viscosity Dynamic viscosity	no data available 0.6 - 7.5 Insoluble in water Miscible with many organic solvents No data available 288 °C / 550.4 °F no data available	None known None known None known None known None known None known None known
Vapor density Relative density Water solubility Solubility(ies) Partition coefficient Autoignition temperature Decomposition temperature Kinematic viscosity Dynamic viscosity Other information	no data available 0.6 - 7.5 Insoluble in water Miscible with many organic solvents No data available 288 °C / 550.4 °F no data available No data available	None known None known None known None known None known None known None known

#### **Bulk density**

No information available

10. Stability and reactivity				
Reactivity	No information available.			
Chemical stability	Stable under normal conditions.			
Possibility of hazardous reactions	None under normal processing.			
Conditions to avoid	Heat, flames and sparks. Excessive heat.			
Incompatible materials	Strong acids. Strong bases. Strong oxidizing agents.			
Hazardous decomposition products	s None known based on information supplied.			

## 11. Toxicological information

#### Information on likely routes of exposure

Product Information	
Inhalation	Specific test data for the substance or mixture is not available. Aspiration into lungs can produce severe lung damage. May cause pulmonary edema. Pulmonary edema can be fatal. May cause irritation of respiratory tract. Harmful by inhalation. (based on components).
Eye contact	Specific test data for the substance or mixture is not available. Irritating to eyes. (based on components). Causes serious eye irritation.
Skin contact	Repeated exposure may cause skin dryness or cracking. Specific test data for the substance or mixture is not available. Causes skin irritation. (based on components).
Ingestion	Specific test data for the substance or mixture is not available. Potential for aspiration if swallowed. May cause lung damage if swallowed. Aspiration may cause pulmonary edema and pneumonitis. May be fatal if swallowed and enters airways. Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea.
Symptoms related to the physic	al, chemical and toxicological characteristics
Symptoms	Difficulty in breathing. Coughing and/ or wheezing. Dizziness. Redness. May cause redness

Acute toxicity

#### Numerical measures of toxicity

Chemical name	Oral LD50	Dermal LD50	Inhalation LC50
Petroleum Ether	-	-	= 3400 ppm (Rat) 4 h
8032-32-4			

#### Delayed and immediate effects as well as chronic effects from short and long-term exposure

and tearing of the eyes.

Skin corrosion/irritation	Classification	Classification based on data available for ingredients. Irritating to skin.			
Serious eye damage/eye i	irritation Classification	Classification based on data available for ingredients. Causes serious eye irritation.			
Respiratory or skin sensit	tization No information	No information available.			
Germ cell mutagenicity	No informatio	No information available.			
Carcinogenicity	No information	No information available.			
The table below indicates whether each agency has listed any ingredient as a carcinogen.					
Chemical name	ACGIH	IARC	NTP	OSHA	

Petroleum Ether	- Group 3 (listed under		
8032-32-4	petroleum solvents)		
Legend			
Reproductive toxicity	No information available.		
STOT - single exposure	No information available.		
STOT - repeated exposur			
Target organ effects	respiratory system, Eyes, Skin, central nervous system.		
Aspiration hazard	May be fatal if swallowed and enters airways.		
	May be fatal if swallowed and enters all ways.		
Other adverse effects	No information available.		
Interactive effects	No information available.		

## 12. Ecological information

#### Ecotoxicity

Chemical name	Algae/aquatic plants	Fish	Toxicity to microorganisms	Crustacea
Petroleum Ether 8032-32-4	EC50: =4700mg/L (72h, Pseudokirchneriella	-	-	-
	subcapitata)			

Persistence and degradability	No information available.
Bioaccumulation	Inherently biodegradable.

Other adverse effects No inform	mation available.
---------------------------------	-------------------

13. Disposal considerations		
Waste treatment methods		
Waste from residues/unused products	Should not be released into the environment. Dispose of in accordance with local regulations. Dispose of waste in accordance with environmental legislation.	

## **Contaminated packaging** Empty containers pose a potential fire and explosion hazard. Do not cut, puncture of weld containers.

## 14. Transport information

## 15. Regulatory information

International Inventories

TSCA

Complies

Complies Complies This product complies with ENCS: This product complies with China: Complies Complies All the constituents of this material are listed on the Australian Inventory of Chemical
All the constituents of this material are listed on the Australian Inventory of Chemical Substances (AICS).

Legend:

**TSCA** - United States Toxic Substances Control Act Section 8(b) Inventory

DSL/NDSL - Canadian Domestic Substances List/Non-Domestic Substances List

**EINECS/ELINCS** - European Inventory of Existing Chemical Substances/European List of Notified Chemical Substances **ENCS** - Japan Existing and New Chemical Substances

IECSC - China Inventory of Existing Chemical Substances

**KECL** - Korean Existing and Evaluated Chemical Substances

PICCS - Philippines Inventory of Chemicals and Chemical Substances

#### US Federal Regulations

#### <u>SARA 313</u>

Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product does not contain any chemicals which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 372.

#### SARA 311/312 Hazard Categories

Should this product meet EPCRA 311/312 Tier reporting criteria at 40 CFR 370, refer to Section 2 of this SDS for appropriate classifications.

#### CWA (Clean Water Act)

This product does not contain any substances regulated as pollutants pursuant to the Clean Water Act (40 CFR 122.21 and 40 CFR 122.42).

#### **CERCLA**

This material, as supplied, does not contain any substances regulated as hazardous substances under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302) or the Superfund Amendments and Reauthorization Act (SARA) (40 CFR 355). There may be specific reporting requirements at the local, regional, or state level pertaining to releases of this material.

#### US State Regulations

#### **California Proposition 65**

This product does not contain any Proposition 65 chemicals.

#### U.S. State Right-to-Know Regulations

Chemical name	New Jersey	Massachusetts	Pennsylvania
Petroleum Ether	0206	Present	Present
