# spectrum®

Preparation Date: 08/09/2019

Revision Number: G1

# SAFETY DATA SHEET

Revision date 08/09/2019

1. IDENTIFICATION			
Product identifier	Product identifier		
Product code: P1515			
Product Name: 1-Pentanethiol	Product Name:		
Other means of identification	Other means of identification		
Synonyms: Amyl hydrosulfide			
Amyl mercaptan	eynenyme.		
n-Amyl mercaptan			
Amyl sulfhydrate			
Amyl thioalcohol			
Pentalarm			
Mercaptan amylique (French)			
Pentyl mercaptan			
CAS #: 110-66-7	CAS #:		
RTECS # SA3150000	RTECS #		
CI#: Not available	CI#:		
Decommonded use of the chemical and restrictions on use	Decommended use of the char		
Recommended use of the chemical and restrictions on use Recommended use: No information available.			
Uses advised against No information available			
Uses advised against into information available	Uses auvised against		
Supplier: Spectrum Chemical Mfg. Corp	Supplier:		
14422 South San Pedro St.			
Gardena, CA 90248			
(310) 516-8000

# 2. HAZARDS IDENTIFICATION

#### **Classification**

This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

Considered a dangerous substance or mixture according to the Globally Harmonized System (GHS)

Acute toxicity - Oral	Category 4
Acute toxicity - Dermal	Category 4
Acute toxicity - Inhalation (Vapors)	Category 4
Skin corrosion/irritation	Category 2
Serious eye damage/eye irritation	Category 2
Flammable liquids	Category 2

#### Label elements

#### Danger

#### Hazard statements Harmful if swallowed, in contact with skin or if inhaled Causes skin irritation Causes serious eye irritation Highly flammable liguid and vapor

Hazards not otherwise classified (HNOC) Not Applicable

#### Other hazards

Not available

#### **Precautionary Statements - Prevention**

Wash face, hands and any exposed skin thoroughly after handling Do not eat, drink or smoke when using this product Wear protective gloves/protective clothing/eye protection/face protection Avoid breathing mist or vapors Use only outdoors or in a well-ventilated area Keep away from heat/sparks/open flames/hot surfaces. — No smoking Keep container tightly closed Ground container and receiving equipment Use explosion-proof equipment Use only non-sparking tools Take precautionary measures against static discharge

#### **Precautionary Statements - Response**

In case of fire: Use CO2, dry chemical, or foam to extinguish.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention.

Call a POISON CENTER or physician if you feel unwell

If skin irritation occurs: Get medical attention

IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water

Wash contaminated clothing before reuse

IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER or physician if you feel unwell.

IF SWALLOWED: Call a POISON CENTER or physician if you feel unwell Rinse mouth

# Precautionary Statements - Storage

Store in a well-ventilated place. Keep cool

#### Precautionary Statements - Disposal

Dispose of contents and container to an approved waste disposal plant in accordance with local, regional, national and international regulations as applicable

# 3. COMPOSITION/INFORMATION ON INGREDIENTS

Component	CAS No	Weight-%
1-Pentanethiol	110-66-7	100

# 4. FIRST AID MEASURES

First aid measures

General Advice:	National Capital Poison Center in the United States can provide assistance if you have a poison emergency and need to talk to a poison specialist. Call 1-800-222-1222.	
Skin Contact:	Wash off immediately with soap and plenty of water removing all contaminated clothing and shoes. Get medical attention. If skin irritation persists, call a physician.	
Eye Contact:	Flush eyes with water for 15 minutes. Get medical attention.	
Inhalation:	Move to fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial respiration. Get medical attention.	
Ingestion:	Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Consult a physician if necessary.	
Most important symptoms and effe	ects, both acute and delayed	
Symptoms	Causes skin irritation Causes serious eye irritation May cause irritation of respiratory tract May cause digestive (gastrointestinal) tract irritation	
Indication of any immediate medica	al attention and special treatment needed	
Notes to Physician:	Treat symptomatically.	
Protection of first-aiders First-Aid Providers: Avoid exposure to blood or body fluids. Wear gloves and other necessary protective clothing. Dispose of contaminated clothing and equipment as bio-hazardous waste.		
5. FIRE-FIGHTING MEASURES		

Extinguishing Media Suitable Extinguishing Media:	Carbon dioxide (CO2). Dry chemical. Alcohol-resistant foam. Water spray.
Unsuitable Extinguishing Media:	Do not use a solid (straight) water stream as it may scatter and spread fire.
Specific hazards arising from the chemical	
Hazardous combustion products	Carbon monoxide. Carbon dioxide (CO2). Sulfur oxides.
Specific hazards	Flammable. May be ignited by heat, sparks or flames. Material can burn with invisible flame. Vapor may travel considerable distance to source of ignition and flash back. Vapors may form explosive mixtures with air. Most vapors are heavier than air. They will spread along the ground and collect in low or confined areas (sewers, basements, tanks). Container explosion may occur under fire conditions or when heated. Fire may produce irritating, corrosive and/or toxic gases.
Special Protective Actions for Firefighters	

**Specific Methods:** 

Water mist may be used to cool closed containers For larger fires, use water spray or fog. Cool containers with flooding quantities of water until well after fire is out

**Special Protective Equipment for Firefighters:** 

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear

# 6. ACCIDENTAL RELEASE MEASURES

#### Personal precautions, protective equipment and emergency procedures

Personal Precautions:	Ensure adequate ventilation. Keep people away from and upwind of spill/leak. Avoid contact with skin, eyes and clothing. Use personal protective equipment. Remove all sources of ignition. Pay attention to flashback. Take precautionary measures against static discharges. All equipment used when handling the product must be grounded. Use spark-proof tools and explosion-proof equipment. In case of large spill, water spray or vapor suppressing foam may be used to reduce vapors, but may not prevent ignition in closed spaces.		
Environmental precautions	Prevent further leakage or spillage if safe to do so. Prevent entry into waterways, sewers, basements or confined areas.		
Methods and material for containment and cleaning up			
Methods for containment	Stop leak if you can do it without risk. Absorb spill with inert material (e.g. vermiculite, dry sand or earth). In case of large spill, dike if needed. Dike far ahead of liquid spill for later disposal.		
Methods for cleaning up	Use appropriate tools to put the spilled material in a suitable chemical waste disposal container. Use only non-sparking tools. Clean contaminated surface thoroughly.		

# 7. HANDLING AND STORAGE

#### Precautions for safe handling

#### **Technical Measures/Precautions:**

Provide sufficient air exchange and/or exhaust in work rooms. Remove all sources of ignition. To avoid ignition of vapors by static electricity discharge, all metal parts of the equipment must be grounded. Keep away from incompatible materials.

#### Safe Handling Advice:

Wear personal protective equipment. Use only in well-ventilated areas. Avoid contact with skin, eyes and clothing. Keep away from heat and sources of ignition. Do not breathe vapors or spray mist. Do not ingest. When using do not smoke. Handle in accordance with good industrial hygiene and safety practice.

#### Conditions for safe storage, including any incompatibilities

#### **Technical Measures/Storage Conditions:**

Moisture sensitive. Store under inert gas. Keep container tightly closed in a dry and well-ventilated place. Keep away from heat and sources of ignition. Store in a segregated and approved area. Store away from incompatible materials.

# Incompatible Materials:

Oxidizing agents Reducing agents Bases Alkalis Alkali Metals

# 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

# Control parameters

# National occupational exposure limits

# **United States**

Component	CAS No	OSHA	NIOSH	ACGIH	AIHA WEEL
1-Pentanethiol	110-66-7	None	0.5 ppm Ceiling 15 min 2.1 mg/m <sup>3</sup> Ceiling 15 min	None	None

# Canada

Component	CAS No	Canada - Alberta	Canada - British Columbia	Canada - Ontario	Canada - Quebec
1-Pentanethiol	110-66-7	None	None	None	None

#### Australia and Mexico

Component	CAS No	Australia	Mexico
1-Pentanethiol	110-66-7	None	None

# Appropriate engineering controls

# Engineering measures to reduce exposure:

Ensure adequate ventilation. Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapors and mist below their respective threshold limit value.

# Individual protection measures, such as personal protective equipment

# **Personal Protective Equipment**

Eye protection:	Goggles or Safety glasses with side-shields.
Skin and body protection:	Chemical resistant apron Long sleeved clothing Gloves
Respiratory protection:	Vapor respirator. Be sure to use an approved/certified respirator or equivalent.
Hygiene measures:	Avoid contact with skin, eyes and clothing. When using, do not eat, drink or smoke. Wash hands before breaks and immediately after handling the product

# 9. PHYSICAL AND CHEMICAL PROPERTIES

<b>Physical state:</b>	<b>Appearance:</b>	Color:
Liquid	Clear.	Colorless.
<b>Odor:</b>	<b>Taste</b>	<b>Formula</b>
No information available.	No information available.	C5H12S
Molecular/Formula weight (g/mole)	: Flammability (solid, gas)	<b>Flashpoint (°C/°F):</b>
104.21	no data available	18°C/ 64°F
Flash Point Tested according to:	Autoignition Temperature (°C/°F):

**Specific gravity:** No information available

**Evaporation rate:** No information available

Odor threshold (ppm): No information available

Miscibility: No information available No information available

Melting point/range(°C/°F): -76°C/ -104.8°F

Bulk density: No information available

**pH** No information available

Vapor density: 3.59

Partition coefficient (n-octanol/water): No information available

**Solubility:** No information available Lower Explosion Limit (%): No information available

**Decomposition temperature(°C/°F):** No information available

**Density (g/cm3):** 0.84

Vapor pressure @ 20°C (kPa): No information available

**VOC content (g/L):** No information available

Viscosity: No information available

# **10. STABILITY AND REACTIVITY**

Reactivity No information available

Chemical stability

Stability:

Moisture Sensitive. Stable under recommended storage conditions.

Possibility of Hazardous Reactions: Hazardous polymerization does not occur

**Conditions to avoid:** Heat. Ignition sources. Incompatible materials. Exposure to moisture.

Incompatible Materials:

Oxidizing agents Reducing agents Bases Alkalis Alkali Metals

Sulfur compounds.

Hazardous decomposition products:

Other Information Corrosivity:

No information available

Special Remarks on Corrosivity: No information available

# **11. TOXICOLOGICAL INFORMATION**

#### Information on likely routes of exposure

**Principal Routes of Exposure:** Skin. Ingestion. Inhalation. Eyes.

Acute Toxicity
