# spectrum®

# SAFETY DATA SHEET

Preparation Date: 07/23/2019	Revision date 07/23/2019	Revision Number: G1
	1. IDENTIFICATION	
Product identifier		
Product code: Product Name:	T1595 TRIMETHYL PHOSPHITE	
<u>Other means of identification</u> Synonyms:	TRIMETHOXYFOSFIN TRIMETHOXYPHOSPHINE TRIMETHYLFOSFIT Phosphite triméthylique (French)	
CAS #: RTECS # CI#:	121-45-9 TH1400000 Not available	
Recommended use of the chem Recommended use: Uses advised against	ical and restrictions on use Chemical intermediate. In inorganic synthesis. No information available	
Supplier:	Spectrum Chemical Mfg. Corp 14422 South San Pedro St. Gardena, CA 90248 (310) 516-8000	
Order Online At: Emergency telephone number Contact Person: Contact Person:	https://www.spectrumchemical.com Chemtrec 1-800-424-9300 Tom Tyner (USA - West Coast) Ibad Tirmiz (USA - East Coast)	

# 2. HAZARDS IDENTIFICATION

# **Classification**

This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

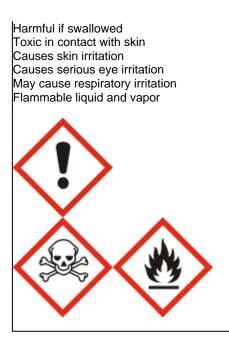

Considered a dangerous substance or mixture according to the Globally Harmonized System (GHS)

Acute toxicity - Oral	Category 4
Acute toxicity - Dermal	Category 3
Skin corrosion/irritation	Category 2
Serious eye damage/eye irritation	Category 2
Specific target organ toxicity (single exposure)	Category 3
Flammable liquids	Category 3

#### Label elements

Danger

Hazard statements

Hazards not otherwise classified (HNOC) Not Applicable

<u>Other hazards</u> May be harmful in contact with skin

#### **Precautionary Statements - Prevention**

Wash face, hands and any exposed skin thoroughly after handling Do not eat, drink or smoke when using this product Wear protective gloves/protective clothing/eye protection/face protection Avoid breathing mist or vapors Use only outdoors or in a well-ventilated area Keep away from heat/sparks/open flames/hot surfaces. — No smoking Keep container tightly closed Ground container and receiving equipment Use explosion-proof equipment Use only non-sparking tools Take precautionary measures against static discharge Keep cool

#### **Precautionary Statements - Response**

In case of fire: Use CO2, dry chemical, or foam to extinguish. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention. Call a POISON CENTER or physician if you feel unwell Wash contaminated clothing before reuse If skin irritation occurs: Get medical attention IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER or physician if you feel unwell. IF SWALLOWED: Call a POISON CENTER or physician if you feel unwell Rinse mouth

#### **Precautionary Statements - Storage**

#### Store locked up

Store in a well-ventilated place. Keep container tightly closed

#### **Precautionary Statements - Disposal**

Dispose of contents and container to an approved waste disposal plant in accordance with local, regional, national and

Product code: T1595

Product name: TRIMETHYL PHOSPHITE

Notes to Physician:	Treat symptomatically.		
Protection of first-aiders First-Aid Providers: Avoid exposure to blood or body fluids. Wear gloves and other necessary protective clothing. Dispose of contaminated clothing and equipment as bio-hazardous waste.			
	5. FIRE-FIGHTING MEA	SURES	
Extinguishing Media Suitable Extinguishing Media:	Carbon d foam.	ioxide (CO2). D	ry chemical. Water spray mist or
Unsuitable Extinguishing Media:	Do not us and sprea		ht) water stream as it may scatter
Specific hazards arising from the chemical			

Hazardous combustion products	Carbon monoxide. Carbon dioxide (CO2). Phosphorus oxides. Phosphine.
Specific hazards	Flammable. May be ignited by heat, sparks or flames. Vapor may travel considerable distance to source of ignition and flash back. Vapors may form explosive mixtures with air. Most vapors are heavier than air. They will spread along the ground and collect in low or confined areas (sewers, basements, tanks). Container explosion may occur under fire conditions or when heated. Fire may produce irritating, corrosive and/or toxic gases.
Special Protective Actions for Firefighters	
Specific Methods:	Water mist may be used to cool closed containers For larger fires, use water spray or fog. Cool containers with flooding quantities of water until well after fire is out
Special Protective Equipment for Firefighters:	As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear

# 6. ACCIDENTAL RELEASE MEASURES

# Personal precautions, protective equipment and emergency procedures

Personal Precautions:	Ensure adequate ventilation. Keep people away from and upwind of spill/leak. Avoid contact with skin, eyes and clothing. Use personal protective equipment. Remove all sources of ignition. Pay attention to flashback. Take precautionary measures against static discharges. All equipment used when handling the product must be grounded. Use spark-proof tools and explosion-proof equipment. In case of large spill, water spray or vapor suppressing foam may be used to reduce vapors, but may not prevent ignition in closed spaces.	
Environmental precautions	Prevent further leakage or spillage if safe to do so. Prevent product from entering drains. Prevent entry into waterways, sewers, basements or confined areas.	
Methods and material for containment and cleaning up		
Methods for containment	Stop leak if you can do it without risk. In case of large spill, dike if needed. Dike far ahead of liquid spill for later disposal.	
Methods for cleaning up	Use appropriate tools to put the spilled material in a suitable chemical waste disposal container. Absorb spill with inert material (e.g. vermiculite, dry sand or earth). Use only non-sparking tools. Clean contaminated surface thoroughly.	

# 7. HANDLING AND STORAGE

### Precautions for safe handling

# **Technical Measures/Precautions:**

Provide sufficient air exchange and/or exhaust in work rooms. Remove all sources of ignition. To avoid ignition of vapors by static electricity discharge, all metal parts of the equipment must be grounded. Keep away from incompatible materials.

# Safe Handling Advice:

Wear personal protective equipment. Use only in well-ventilated areas. Avoid contact with skin, eyes and clothing. Keep away from heat and sources of ignition. Do not breathe vapors or spray mist. Do not ingest. When using do not smoke. Handle in accordance with good industrial hygiene and safety practice.

#### Conditions for safe storage, including any incompatibilities

### **Technical Measures/Storage Conditions:**

Keep container tightly closed in a dry and well-ventilated place. Store at room temperature in the original container. Keep away from heat and sources of ignition. Store in a segregated and approved area. Store away from incompatible materials.

# Incompatible Materials:

Oxidizing agents Strong bases

# 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

# Control parameters

# National occupational exposure limits

# **United States**

Component	CAS No	OSHA	NIOSH	ACGIH	AIHA WEEL
Trimethyl Phosphite	121-45-9	None	2 ppm TWA 10 mg/m³ TWA	2 ppm TWA	None

#### Canada

Component	CAS No	Canada - Alberta	Canada - British Columbia	Canada - Ontario	Canada - Quebec
Trimethyl Phosphite	121-45-9	2 ppm TWA 10 mg/m³ TWA	2 ppm TWA	None	None

# Australia and Mexico

Component	CAS No	Australia	Mexico
Trimethyl Phosphite	121-45-9	2 ppm TWA 10 mg/m³ TWA	2 ppm TWA

# Appropriate engineering controls

#### Engineering measures to reduce exposure:

Ensure adequate ventilation. Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapors and mist below their respective threshold limit value.

# Individual protection measures, such as personal protective equipment

**Personal Protective Equipment** 

Eye protection:	Goggles or Safety glasses with side-shields.
Skin and body protection:	Chemical resistant apron Long sleeved clothing Gloves
Respiratory protection:	Vapor respirator. Be sure to use an approved/certified respirator or equivalent.
Hygiene measures:	Avoid contact with skin, eyes and clothing. When using, do not eat, drink or smoke. Wash hands before breaks and immediately after handling the product

# 9. PHYSICAL AND CHEMICAL PROPERTIES

**Physical state:** Liquid

Odor: Pungent. Powerful. Irritating.

Molecular/Formula weight (g/mole): Flammability (solid, gas) 124.08

Flash Point Tested according to: Closed cup Open cup **Upper Explosion Limit (%):** No information available

Boiling point/range(°C/°F): 111-112 °C/231.8-233.6 °F

Specific gravity: 1.046 to 1.0520 @ 20 °C

**Evaporation rate:** No information available

Odor threshold (ppm): No information available

**Miscibility:** No information available Appearance: No information available.

Taste No information available.

no data available

Autoignition Temperature (°C/°F): No information available

Melting point/range(°C/°F): -78 °C/-108.4 °F

**Bulk density:** No information available

рΗ No information available

Vapor density: 4.3

Partition coefficient (n-octanol/water): -0.73

Solubility: Very soluble in Ethanol Very soluble in Dimethyl Sulfoxide Soluble in Benzene Soluble in Acetone Soluble in Carbon tetrachloride Soluble in Hexane Soluble in Kerosene Hydrolyzes in water

Color: Colorless.

Formula C3-H9-O3-P

Flashpoint (°C/°F): 28°C/82°F 54°C/130°F Lower Explosion Limit (%): No information available

Decomposition temperature(°C/°F): No information available

Density (g/cm3): No information available

Vapor pressure @ 20°C (kPa): 2.26

VOC content (q/L): No information available

Viscosity: No information available

# **10. STABILITY AND REACTIVITY**

Reactivity No information available

Chemical stability	
Stability:	Stable under recommended storage conditions.
Possibility of Hazardous Reactions	: Hazardous polymerization does not occur
Conditions to avoid:	Heat. Ignition sources. Incompatible materials.
Incompatible Materials:	Oxidizing agents Strong bases
Hazardous decomposition products:	Carbon monoxide. Carbon dioxide. Phosphorus oxides and/or phosphine. When heated to decomposition it emits toxic fumes.

Product code: T1595

Other Information Corrosivity:

No information available

# Special Remarks on Corrosivity: No information available

# **11. TOXICOLOGICAL INFORMATION**

#### Information on likely routes of exposure

Principal Routes of Exposure: Ingestion. Skin. Eyes. Inhalation.

#### Acute Toxicity

# The following values are calculated based on chapter 3.1 of the GHS document Component Information

Trimethyl Phosphite
CAS No 121-45-9
LD50/oral/rat = = 1600 mg/kg Oral LD50 Rat
LD50/oral/mouse = 4280 mg/kg

VALUE-Gas = No information available VALUE-Dust/Mist = No information available

LC50/Inhalation/mouse VALUE-Vapor = No information available VALUE - Gas = No information available VALUE - Dust/Mist = No information available

Symptoms

Skin Contact:

Toxic in contact with skin. Irritating to skin. It may be absorbed through the skin. If absorbed through skin it may cause systemic effects with symptoms similar to

Product code: T1595

	those of ingestion. If absorbed through the skin it may affect behavior/central nervous system and cause central nervous system effects.	
Eye Contact:	Causes serious eye irritation.	
Inhalation	May cause respiratory irritation.	
Ingestion	Harmful if swallowed. May cause digestive (gastointestinal) tract irritation. May cause coughing. May cause headache. Ingestion may cause nausea, vomiting.	
Aspiration hazard	No information available.	
Delayed and immediate effects as well as chronic effects from short and long-term exposure		
Chronic Toxicity	Prolonged or repeated inhalation may cause emphysema. Prolonged or repeated inhalation may affect the kidneys. Prolonged or repeated ingestion may affect the liver. Prolonged or repeated exposure of eyes to vapor or mist may cause corneal damage. Chronic exposure may cause dermatitis. Prolonged or repeated ingestion may affect metabolism. Prolonged or repeated skin contact and absorption may affect the liver (hepatitis) and respiration (chronic pulmonary edema).	
Sensitization:	No information available.	
Mutagenic Effects:	May affect genetic material Mutagenic effects in mammalian somatic cells	

Carcinogenic effects:	May cause cancer based on animal test data.	Tumorigenic agent by RTECS
	criteria.
