# TCI AMERICA SAFETY DATA SHEET

**Diethyl Sulfate** D0525 For laboratory research purposes. Not for drug or household use. Emergency telephone number: Chemical Emergencies: TCI America (8:00am - 5:00pm) PST +1-503-286-7624 Transportation Emergencies: Chemtrec 24-Hour +1-800-424-9300 (U.S.A.) +1-703-527-3887 (International) **Responsible department:** TCI America Environmental Health Safety and Security +1-503-286-7624

Obtain special instructions before use. Do not handle until all safety precautions have been read and

understood. Do not breathe mist, vapors or spray. Avoid release to the environment. Do not eat, drink or smoke when using this product. Wash hands and face thoroughly after handling. Wear protective

If swallowed: Rinse mouth. Do NOT induce vomiting. Immediately call a poison center or doctor. If on

skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower.

[Disposal]

Immediately call a poison center or doctor. Wash contaminated clothing before reuse. If inhaled: Remove person to fresh air and keep comfortable for breathing. Immediately call a poison center or doctor. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center or doctor. If exposed or concerned: Call a poison center or doctor. Store locked up. Dispose of contents and container in accordance with local, regional, national regulations (e.g. US: 40 CFR Part 261, EU:91/156/EEC, JP: Waste Disposal and Cleaning Act, etc.).

gloves, protective clothing, face protection.

May cause damage to organs: Respiratory System

| 3. COMPOSITION/INFORMATION ON INGREDIENTS  |  |  |  |
|--|--|--|--|
| Substance/mixture:<br>Components:<br>Percent:<br>CAS RN:<br>Molecular Weight:<br>Chemical Formula:         | Substance<br>Diethyl Sulfate<br>>98.0%(GC)<br>64-67-5<br>154.18<br>C4H10O4S  |  |  |
| 4. FIRST-AID MEASURES  |  |  |  |
|  |  |  |  |
| Description of first aid measures  |  |  |  |
| Inhalation:  | Remove victim to fresh air and keep at rest in a position comfortable for breathing. Immediately call a POISON CENTER or doctor/physician.   |  |  |
| Skin contact:  | Remove/Take off immediately all contaminated clothing. Gently wash with plenty of soap and water.<br>Immediately call a POISON CENTER or doctor/physician.   |  |  |
| Eye contact:   | Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.Immediately call a POISON CENTER or doctor/physician.  |  |  |
| Ingestion:   | Immediately call a POISON CENTER or doctor/physician. Rinse mouth. Do NOT induce vomiting.   |  |  |
| Symptoms/effects:  |  |  |  |
| Acute:   | Pain. Redness.   |  |  |
| Delayed:   | May cause heritable genetic damage in humans. Possibly carcinogenic to humans.   |  |  |
| Indication of any immediate medical attended<br>Not available.<br>Notes to physician:<br>No data available | ention:  |  |  |
| 5. FIRE-FIGHTING MEASURES  |  |  |  |
| Suitable extinguishing media:<br>Unsuitable extinguishing media:   | Dry chemical, foam, water spray, carbon dioxide.<br>Solid streams of water   |  |  |
| Specific hazards arising from the<br>chemical:   | Take care as it may decompose upon combustion or in high temperatures to generate poisonous fume.  |  |  |
| Hazardous combustion products:<br>Other specific hazards:  | These products include: Carbon oxides Sulfur oxides<br>Closed containers may explode from heat of a fire.  |  |  |
| Advice for firefighters:   | Wear self-contained breathing apparatus if possible.   |  |  |
| 6. ACCIDENTAL RELEASE MEASU  | RES  |  |  |
| Personal precautions, protective equipment and emergency procedures:                                       | Use personal protective equipment. Keep people away from and upwind of spill/leak. Ensure adequate ventilation. Entry to non-involved personnel should be controlled around the leakage area by roping off, etc. |  |  |

| equipment and emergency procedures:   | ventilation. Entry to non-involved personnel should be controlled around the leakage area by roping on, |
|---------------------------------------|---|
|                                       | etc.  |
| Environmental precautions:            | Prevent product from entering drains.   |
| Methods and materials for containment | Absorb spilled material in a suitable absorbent (e.g. rag, dry sand, earth, saw-dust). In case of large |
| and cleaning up:                      | amount of spillage, contain a spill by bunding. Adhered or collected material should be promptly        |
|                                       | disposed of, in accordance with appropriate laws and regulations.                                       |
|                                       |   |

# 7. HANDLING AND STORAGE

| Precautions for safe handling:                               | Handling is performed in a well ventilated place. Wear suitable protective equipment. Prevent generation of vapour or mist. Wash hands and face thoroughly after handling.<br>Use a closed system if possible. Use a ventilation, local exhaust if vapour or aerosol will be generated.<br>Avoid all contact! |  |  |  |
|--|---|--|--|--|
| Conditions for safe storage, including any incompatibilities |   |  |  |  |
| Storage conditions:  | Keep container tightly closed. Store in a cool and dark place.  |  |  |  |
| -  | Store locked up.  |  |  |  |
|  | Store away from incompatible materials such as oxidizing agents.  |  |  |  |
| Packaging material:  | Comply with laws.   |  |  |  |

**TCI AMERICA** 

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

| Appropriate engineering controls: | Follow safe industrial engineering/laboratory practices when handling any chemical. Install a closed system or local exhaust. Also install safety shower and eye bath.  |
|-----------------------------------|---|
| Personal protective equipment     |   |
| Respiratory protection:           | Half or full facepiece respirator, self-contained breathing apparatus(SCBA), supplied air respirator, etc.<br>Use respirators approved under appropriate government standards and follow local and national<br>regulations. |
| Hand protection:                  | Impervious gloves.  |
| Eye protection:                   | Safety goggles. A face-shield, if the situation requires.   |
| Skin and body protection:         | Impervious protective clothing. Protective boots, if the situation requires.  |

# 9. PHYSICAL AND CHEMICAL PROPERTIES

| 13. DISPOSAL CONSIDERATIONS  |   |  |  |  |  |
| Disposal of product:   | Recycle to process if possible. It is the generator's responsibility to comply with Federal, State and Local rules and regulations. You may be able to dissolve or mix material with a combustible solvent and burn in a chemical incinerator equipped with an afterburner and scrubber system. This section is intended to provide assistance but does not replace these laws, nor does compliance in accordance with this section ensure regulatory compliance according to the law. US EPA guidelines for Identification and Listing of Hazardous Waste are listed in 40 CFR Parts 261. The product should not be allowed to enter the environment drains, water ways, or the soil |  |  |  |  |

be allowed to enter the environment, drains, water ways, or the soil.

Dispose of as unused product. Do not re-use empty containers. Observe all federal, state and local regulations when disposing of the substance.

Disposal of container: Other considerations:

#### 16. OTHER INFORMATION

#### Revision date: 07/06/2018

#### Revision number: 1

TCI chemicals are for research purposes only and are NOT intended for use as drugs, food additives, households, or pesticides. The information herein is believed to be correct, but does not claim to be all inclusive and should be used only as a guide. Neither the above named supplier nor any of its affiliates or subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All chemical reagents must be handled with the recognition that their chemical, physiological, toxicological, and hazardous properties have not been fully investigated or determined. All chemical reagents should be handled only by individuals who are familiar with their potential hazards and who have been fully trained in proper safety, laboratory, and chemical handling procedures. Although certain hazards are described herein, we can not guarantee that these are the only hazards which exist. Our SDS are based only on data available at the time of shipping and are subject to change without notice as new information is obtained. Avoid long storage periods since the product is subject to degradation with age and may become more dangerous or hazardous. It is the responsibility of the user to request updated SDS for products that are stored for extended periods. Disposal of unused product must be undertaken by qualified personnel who are knowledgeable in all applicable regulations and follow all pertinent safety precautions including the use of appropriate protective equipment (e.g. protective goggles, protective clothing, breathing equipment, face mask, fume hood). For proper handling and disposal, always comply with federal, state and local regulations.
