| 4. FIRST-AID MEASURES  |  |  |  |
|--|--|--|--|
| Description of first old measures  |  |  |  |
| Description of first aid measures<br>Inhalation:   | Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical advice/attention if you feel unwell.  |  |  |
| Skin contact:  | Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. If skin irritation<br>or rash occurs: Get medical advice/attention.<br>Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do.<br>Continue rinsing. If eye irritation persists: Get medical advice/attention.  |  |  |
| Eye contact:   |  |  |  |
| Ingestion:   | Get medical advice/attention if you feel unwell. Rinse mouth.  |  |  |
| Symptoms/effects:  |  |  |  |
| Acute:<br>Delayed:   | No data available<br>No data available   |  |  |
| Delayeu.   |  |  |  |
| Indication of any immediate medical attention Not available.<br>Notes to physician:<br>No data available   | ention:  |  |  |
| 5. FIRE-FIGHTING MEASURES  |  |  |  |
| Suitable extinguishing media:<br>Unsuitable extinguishing media:   | Dry chemical, foam, carbon dioxide.<br>Water (It may scatter and spread fire.)   |  |  |
| Hazardous combustion products:<br>Other specific hazards:  | These products include: Carbon oxides<br>Closed containers may explode from heat of a fire.  |  |  |
| Advice for firefighters:   | Wear self-contained breathing apparatus if possible.   |  |  |
| 6. ACCIDENTAL RELEASE MEASU  | RES  |  |  |
| Personal precautions, protective equipment and emergency procedures:   | Use personal protective equipment. Keep people away from and upwind of spill/leak. Ensure adequate ventilation. Entry to non-involved personnel should be controlled around the leakage area by roping off, etc.   |  |  |
| Environmental precautions:<br>Methods and materials for containment<br>and cleaning up:  | Prevent product from entering drains.<br>Absorb spilled material in a suitable absorbent (e.g. rag, dry sand, earth, saw-dust). In case of large<br>amount of spillage, contain a spill by bunding. Adhered or collected material should be promptly<br>disposed of, in accordance with appropriate laws and regulations.  |  |  |
| 7. HANDLING AND STORAGE  |  |  |  |
| Precautions for safe handling:   | Handling is performed in a well ventilated place. Wear suitable protective equipment. Prevent generation of vapour or mist. Wash hands and face thoroughly after handling. Use a ventilation, local exhaust if vapour or aerosol will be generated.  |  |  |
| Conditions for safe storage, including a   |  |  |  |
| Storage conditions:  | Keep container tightly closed. Store in a cool and dark place.   |  |  |
|  | Store away from incompatible materials such as oxidizing agents.   |  |  |
| Packaging material:  | Air-sensitive<br>Comply with laws.   |  |  |
| 8. EXPOSURE CONTROLS / PERSC   | ONAL PROTECTION  |  |  |
|  |  |  |  |
| Appropriate engineering controls:  | Follow safe industrial engineering/laboratory practices when handling any chemical. Install a closed system or local exhaust as possible so that workers should not be exposed directly. Also install safety shower and eye bath.  |  |  |
| Personal protective equipment<br>Respiratory protection:   | Vapor respirator. Follow local and national regulations.   |  |  |
| Hand protection:   | Protective gloves.   |  |  |
| Eye protection:<br>Skin and body protection:   | Safety glasses. A face-shield, if the situation requires.<br>Protective clothing. Protective boots, if the situation requires.   |  |  |
| and cleaning up:<br>7. HANDLING AND STORAGE<br>Precautions for safe handling:<br>Conditions for safe storage, including a<br>Storage conditions:<br>Packaging material:<br>8. ### 12. ECOLOGICAL INFORMATION

| Ecotoxicity:       Fish:       No data available         Fish:       No data available         Crustacea:       No data available         Algae:       No data available         Persistence / degradability:       No data available         Bioaccumulative potential(BCF):       No data available         Mobility in soil       No data available         Soil adsorption (Koc):       No data available         No data available       No data available         Soil adsorption (Koc):       No data available         Henry's Law (PaM ³/mol):       No data available         13. DISPOSAL CONSIDERATIONS       Recycle to process if possible. It is the generator's responsibility to comply with Federal, State and Local rules and regulations. You may be able to dissolve or mix material with a combustible solvent and burn in a chemical incinerator equipped with an afterburner and scrubber system. This section is intended to provide assistance but does not regulate these laws, nor does compliance in accordance with this section ensure regulatory compliance according to the law. US EPA guidelines for Identification and Listing of Hazardous Waste are listed in 40 CFR Parts 261. The product should not be allowed to enter the environment, drains, water ways, or the soil.         Disposal of container:       Dispose of as unused product.         Other considerations:       Observe all federal, state and local regulations when disposing of the substance.         14. TRANSPORT INFORMATION       Non-hazardous f |                              |                                   |
|---|------------------------------|-----------------------------------|
| Crustacea:       No data available         Algae:       No data available         Persistence / degradability:       No data available         Bioaccumulative potential(BCF):       No data available         Mobility in soil       Log Pow:       No data available         Soil adsorption (Koc):       No data available         Soil adsorption (Koc):       No data available         Henry's Law (PaM ³/mol):       No data available         Disposal of product:       Recycle to process if possible. It is the generator's responsibility to comply with Federal, State and Local rules and regulations. You may be able to dissolve or mix material with a combustible solvent and burn in a chemical incinerator equipped with an afterburner and scrubber system. This section is intended to provide assistance but does nor teplace these laws, nor does compliance in accordance with this section ensure regulatory compliance according to the law. US EPA guidelines for Identification and Listing of Hazardous Waste are listed in 40 CFR Parts 261. The product should not be allowed to enter the environment, drains, water ways, or the soil.         Disposal of container:       Dispose of as unused product.         Other considerations:       Observe all federal, state and local regulations when disposing of the substance.         14. TRANSPORT INFORMATION       Non-hazardous for transportation.   | Ecotoxicity:                 |                                   |
| Algae:       No data available         Persistence / degradability:       No data available         Bioaccumulative potential(BCF):       No data available         Mobility in soil       No data available         Log Pow:       No data available         Soil adsorption (Koc):       No data available         Henry's Law (PaM ³/mol):       No data available         No data available       No data available         Disposal of product:       Recycle to process if possible. It is the generator's responsibility to comply with Federal, State and Local rules and regulations. You may be able to dissolve or mix material with a combustible solvent and burn in a chemical incinerator equipped with an afterburner and scrubber system. This section is intended to provide assistance but does not replace these laws, nor does compliance in accordance with this section ensure regulatory compliance according to the law. US EPA guidelines for Identification and Listing of Hazardous Waste are listed in 40 CFR Parts 261. The product should not be allowed to enter the environment, drains, water ways, or the soil.         Disposal of container:       Dispose of as unused product.         Other considerations:       Observe all federal, state and local regulations when disposing of the substance.         14. TCI chemicals are for research purposes only and are NOT intended for use as drugs, food additives, households, or pesticides. The information herein is believed to be correct, but does not claim to be all inclusive and should be used only as a guide. Neither the above named supplier nor any of its affiliates or subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All chemical reagents must be handled with the recognition that their chemical, physiological, toxicological, and hazardous properties have not been fully investigated or determined. All chemical reagents should be handled only by individuals who are familiar with their potential hazards and who have been fully trained in proper safety, laboratory, and chemical handling procedures. Although certain hazards are described herein, we can not guarantee that these are the only hazards which exist. Our SDS are based only on data available at the time of shipping and are subject to change without notice as new information is obtained. Avoid long storage periods since the product is subject to degradation with age and may become more dangerous or hazardous. It is the responsibility of the user to request updated SDS for products that are stored for extended periods. Disposal of unused product must be undertaken by qualified personnel who are knowledgeable in all applicable regulations and follow all pertinent safety precautions including the use of appropriate protective equipment (e.g. protective goggles, protective clothing, breathing equipment, face mask, fume hood). For proper handling and disposal, always comply with federal, state and local regulations.
